

CLINICAL SCIENCES (CLS11-DN)

CLS11-DN 3514 Clinical - Fixed Prosth & Implants (3 Credits)

Typically offered Fall

This course is designed to allow students to apply foundation knowledge in diagnosis and treatment planning to clinical experiences in Fixed Prosthodontics. The knowledge gained from this course allows students to be skilled competent general practitioners who have the required knowledge and skills to fulfill the fundamental prosthodontic needs of patients. This course is open only to students in the Doctor of Dental Surgery program. Core curriculum.

Grading: Dental Graded

Repeatable for additional credit: No

CLS11-DN 3515 Clinical - Rem Prosth & Implants (2 Credits)

Typically offered Fall

This course provides the core procedures as a foundation for treating complete and partial denture patients. The knowledge gained from this course allows students to be skilled competent general practitioners who have the required knowledge and skills to fulfill the fundamental prosthodontic needs of patients. This course is designed to allow students to apply foundation knowledge in diagnosis and treatment planning to clinical experiences in Removable Prosthodontics. This course is open only to students in the Doctor of Dental Surgery program. Core curriculum.

Grading: Dental Graded

Repeatable for additional credit: No

CLS11-DN 3608 Elective in Fixed and Implant Simulation Teaching (2 Credits)

Typically offered Fall

This course provides a peer teaching experience for D3 student TAs interested in assisting their peers enrolled in the D2 Simulation – Fixed and Implant Prosthodontics course (PCL11-DN 2509) and learning the best techniques for interpersonal communication and prosthodontic patient care. Qualified D3 students are teamed with teaching faculty from within the course who will supervise pre-clinical interactions with D2 students. By shadowing trained faculty, TAs will learn how to critically evaluate and constructively communicate to their D2 peers. TAs must adhere to the educational standards and techniques being taught to the D2 class, e.g., using only the materials that are used for a specific procedure that is core technique. In this teaching practicum, TAs will be offered options and opportunities to attend special seminars and/or meetings focusing on prosthodontics or communications. This course is open only to students in the Doctor of Dental Surgery program. Elective.

Grading: Dental Pass/Fail

Repeatable for additional credit: No

CLS11-DN 4513 Clinical - Fixed Prosth & Implants (4 Credits)

Typically offered Fall

This course is designed to allow students to apply foundation knowledge in diagnosis and treatment planning to clinical experiences in Fixed Prosthodontics. The knowledge gained from this course allows students to be skilled competent general practitioners who have the required knowledge and skills to fulfill the fundamental prosthodontic needs of patients. This course is open only to students in the Doctor of Dental Surgery program. Core curriculum.

Grading: Dental Graded

Repeatable for additional credit: No

CLS11-DN 4514 Clinical - Rem Prosth & Implants (2 Credits)

Typically offered Fall

This course builds on the clinical experiences and clinical equivalent remote experiences gained in D3 (CLS11-DN 3515) for treating complete and partial denture patients. The knowledge gained from this course allows students to be skilled competent general practitioners who have the required knowledge and skills to fulfill the fundamental prosthodontic needs of patients. This course is open only to students in the Doctor of Dental Surgery program. Core curriculum.

Grading: Dental Graded

Repeatable for additional credit: Yes
