

DIGITAL HUMANITIES AND SOCIAL SCIENCE (DHSS-GA)

DHSS-GA 1122 Web Development (4 Credits)

Typically offered Spring

This course uses a project-based learning approach towards the study of web technologies and web programming. Students study the principles of web design and each student builds one or more interactive websites based on content relevant to their scholarly interest in the humanities or social sciences. Not open to graduate Computer Science, Information Systems, Mathematics or Scientific Computing students.

Grading: GSAS Graded

Repeatable for additional credit: No
