

INTERNATIONAL EDUCATION (INTE-GE)

INTE-GE 2007 Qualitative Methods in International Education (4 Credits)

Typically offered Fall and Spring

Course provides an intensive introduction to qualitative methods used in comparative education & the social sciences in international settings. It includes training in research design (e.g., ethnography, case studies), data collection methods (e.g., semi-structured interviews; observations), & analysis most commonly associated with qualitative research.

Grading: Grad Steinhardt Graded

Repeatable for additional credit: No

INTE-GE 2008 Quantitative Methods in International Education (4 Credits)

Typically offered Fall and Spring

Course serves as an introduction to the analytic & empirical methodologies employed in contemporary quantitative analyses of international, comparative, & US education. Covering various sub-fields & topics, this course emphasizes a basic understanding of the statistics & theory behind different methods, a thoughtful consumption of literature that uses quantitative methods, & application of common statistical techniques.

Grading: Grad Steinhardt Graded

Repeatable for additional credit: No

INTE-GE 2009 The Practice of Study Abroad and International Student Services (3 Credits)

Typically offered Spring

Course examines the practice of education abroad and international student services in higher education. Topics include the historical development and current state of the field, an analysis of various types of study abroad programs and innovative programs that involve “outbound” student mobility, assessment of study abroad programs, international student flows into the United States, international student recruitment, visa and immigration services, support structures for international students, and the transition from education to work for international students.

Grading: Grad Steinhardt Graded

Repeatable for additional credit: No

INTE-GE 2023 Socio-anthropological Approaches to International Education (4 Credits)

Typically offered Spring

Course examines the sociological & anthropological interrelationship among society, culture, & education in various national & local settings. Focusing on pluralistic communities—namely, the tension between universalism, relativism, & multiculturalism, and issues of ‘race,’ gender/sexual orientation, ethnicity/linguistic group affiliations—the course will explore how culture & social relations influence behavior, personality, norms, & values, as well as how these shape relationships between individuals, groups & institutions within & across societies.

Grading: Grad Steinhardt Graded

Repeatable for additional credit: No

INTE-GE 2025 Contemporary Issues in International Education (4 Credits)

Typically offered Fall

Drawing from contemporary issues in education, this course analyzes the ways in which education contributes to attitudes and behaviors, which in turn influence social processes such as democratization, peace, conflict, and development around the world. Using current events as a point of departure, the course explores the different ways that education can contribute to social change.

Grading: Grad Steinhardt Graded

Repeatable for additional credit: No

INTE-GE 2026 Politics, Migration and Education (3 Credits)

This hands-on course explores the ways politics, migration, and education intersect in Italy and in western Europe more broadly. Worldwide, politics and immigration are upending long held beliefs about borders, integration, citizenship, and education systems. Through lectures, readings, discussions with experts, and site visits with NGOs, students learn about key challenges and promising interventions that support newcomers in Italy. Students hone their interview, observation, writing, and analysis skills to create a final paper or multimedia project in the process.

Grading: Grad Steinhardt Graded

Repeatable for additional credit: No

INTE-GE 2028 Education and Conflict (3 Credits)

Typically offered Spring

This course explores the politics of civil conflict, peacebuilding, and the role of education in promoting violence or peace. Specifically it explores the humanitarian efforts of international actors (international organizations, bilateral donors, NGOs), local actors (civil society associations, nationalist and ideological factions), and their influence on education systems during war and emerging peace. Case studies may include Afghanistan, Colombia, Sierra Leone, Pakistan, and West Bank/ Gaza.

Grading: Grad Steinhardt Graded

Repeatable for additional credit: No

INTE-GE 2296 Artistic Activism & Radical Education in Third Spaces: Argentine (3 Credits)

Today, some of the most interesting, dynamic and relevant learning spaces in education are generative in-between spaces or what we are calling “third spaces” that allow us to imagine new ways of learning and working together, relating to each other, and imagining an alternative humane and just world. This course explores these third spaces through a multisensory, interdisciplinary and experiential way of learning in order to capture their embodied nature: readings, artworks, creative workshops, field trips, art projects, and guest lectures.

Grading: Grad Steinhardt Graded

Repeatable for additional credit: No

INTE-GE 2300 Independent Study (1-6 Credits)

Typically offered Fall, Spring, and Summer terms

It should be noted that independent study requires a minimum of 45 hours of work per point. Independent study cannot be applied to the established professional education sequence in teaching curricula. Each departmental program has established its own maximum credit allowance for independent study. This information may be obtained from a student’s department. Prior to registering for independent study, each student should obtain an Independent Study Approval Form from the adviser.

Grading: Grad Steinhardt Graded

Repeatable for additional credit: Yes

INTE-GE 2545 Immigration and Education in the World (3 Credits)*Typically offered Spring*

"Contemporary (im)migration is a global phenomenon that shapes populations and nations of inequality. Each semester will focus on a different national context of schooling and education. This course serves as an introduction to different theoretical and empirical scholarship on the role of education in the social adaptation on (im)migrants, and how race/ethnicity, social class, and gender matter.

Grading: Grad Steinhardt Graded**Repeatable for additional credit:** No**INTE-GE 2546 Inside the Global Network: Study Abroad and Exchange at NYU (3 Credits)**

Look behind the curtain of study abroad and international exchange at the world's leading global university: NYU. In this experiential course students examine the processes underlying international student exchange and study abroad across NYU's global academic centers. Students meet and work with leadership and staff at NYU's global programming offices and explore the extensive strategizing, coordination, and logistics involved with creating, managing, and executing international education experiences within NYU's Global Network University.

Grading: Grad Steinhardt Graded**Repeatable for additional credit:** No**INTE-GE 2629 Artistic Activism & Radical Education in Third Spaces: Argentine (3 Credits)**

Today, some of the most interesting, dynamic and relevant learning spaces in education are generative in-between spaces or what we are calling "third spaces" that allow us to imagine new ways of learning and working together, relating to each other, and imagining an alternative humane and just world. This course explores these third spaces through a multisensory, interdisciplinary and experiential way of learning in order to capture their embodied nature: readings, artworks, creative workshops, field trips, art projects, and guest lectures.

Grading: Grad Steinhardt Graded**Repeatable for additional credit:** No**INTE-GE 2802 Professional Development in International Education (0-4 Credits)***Typically offered Fall, Spring, and Summer terms*

Designed for graduate students who wish to serve as interns in international and intercultural settings. Permission to register is based on evaluation of student's internship placement by Internship Coordinator. Through course meetings and assignments, along with working in a professional setting, students develop the necessary skills to later use in their job search and career. Open by special permission to other Steinhardt students.

Grading: Grad Steinhardt Pass/Fail**Repeatable for additional credit:** Yes**INTE-GE 2803 Foundations In International Education (4 Credits)***Typically offered Fall*

Course offers multidisciplinary examination of seminal concepts of modernization & global analysis & their application to education. It focuses on the mission of international education in different cultural contexts & the underlying theoretical assumptions & models that inform development projects undertaken by organizations such as the UN Development Program, the World Bank, the Council of Europe, & the US Agency for International Development.

Grading: Grad Steinhardt Graded**Repeatable for additional credit:** No**INTE-GE 2805 Globalization & Educ (3 Credits)***Typically offered Fall*

The course examines the conceptual and empirical work on the social, cultural, and economic aspects of globalization and their implications for education. We shall explore education in light of: 1) the increasing de-territorialization of cultural formations; 2) the emergence of global markets along with the post-nationalization of the production and distribution of goods and services – with a concomitant premiss on knowledge – intensive work; 3) new information and communication technologies which are reshaping the structure and meaning of work, belonging and community; 4) unprecedented population movements and worldwide immigration. We shall examine recent conceptual work, in globalization and its relationships to human experience with a focus on youth.

Grading: Grad Steinhardt Graded**Repeatable for additional credit:** No**INTE-GE 2806 The Practice of International Education (3 Credits)***Typically offered Fall*

Practices and applications of the various areas of international education at the tertiary level of the United States. Examines key areas in the field: international student and scholar services; study abroad; international recruitment and admissions; institutional linkages; and governance, development, leadership, and protocol.

Grading: Grad Steinhardt Graded**Repeatable for additional credit:** No**INTE-GE 2809 International Human Rights Activism and Education (3-4 Credits)***Typically offered Spring*

Examination of international human rights standards and principals, using case studies to analyze violations of basic human rights programs. Emphasis is on the role of international and local NGOs (non-governmental organizations) in the human rights movement, and the role of education in promoting human rights. Considers different approaches to teaching human rights in both formal and non-formal educational settings.

Grading: Grad Steinhardt Graded**Repeatable for additional credit:** No**INTE-GE 2811 The Global Curriculum Internationalization of Higher Education in the United States (3 Credits)***Typically offered occasionally*

This course examines historical & contemporary issues surrounding the internationalization of higher education in the United States, focusing on how the production of knowledge about international issues changes according to transformations in global political, economic, social, & cultural contexts. The course first establishes a theoretical foundation in issues related to the production of knowledge, national interests, universities, & globalization & education & then turns to the history of university internationalization in the U.S. Readings & discussion will trace the early "borrowing" of educational models from Europe, the historical development of the U.S. research university, the establishment of area studies centers after World War II, the explosion of student interest in study abroad, & the increasing establishment of satellite campuses & university partnerships in places such as the Persian Gulf & Singapore.

Grading: Grad Steinhardt Graded**Repeatable for additional credit:** No**INTE-GE 2820 Professional Skills (1-2 Credits)**

A series of short courses designed to develop specific skills for students in international education and other fields.

Grading: Grad Steinhardt Pass/Fail**Repeatable for additional credit:** No

INTE-GE 2821 Professional Skills: Writing for Academic and Career Success (1 Credit)

Students learn key writing skills required for conveying meaning and arguments clearly, directly, and concisely. Students learn how to get started on any project, organize their thoughts, confront writing anxieties, and dispel myths about writing.

Grading: Grad Steinhardt Pass/Fail

Repeatable for additional credit: No

INTE-GE 2822 Professional Skills: Public Speaking (1 Credit)

Delivering effective presentations and leading group discussions are essential skills for professional life. In this performance-oriented course, students examine key ingredients for great speech-making and develop skills for delivering messages that influence audiences. This course examines public speaking concepts such as storytelling and persuasive communication alongside performance concepts such as vocal drills and gestural/nonverbal techniques. Students explore public speaking through a combination of improv exercises, role play, and formal presentations.

Grading: Grad Steinhardt Pass/Fail

Repeatable for additional credit: No

INTE-GE 2862 Intl Devt and Educ (3 Credits)

Typically offered Fall

Introduces students to the most pressing normative, theoretical, empirical and practical questions in international development.

Topics may include development challenges; theories of development; international development aid; development actors and institutions; the role of education; education interventions; local approaches to development; policy and program implementation; program and impact evaluation; and theory-practice questions. Variants of the course, that build upon one another, are offered on Washington Square and at NYU study away sites.

Grading: Grad Steinhardt Graded

Repeatable for additional credit: Yes

INTE-GE 2863 Intl Devt and Educ: Theory and Practice (3 Credits)

Focuses on developing familiarity, engagement, and critical reflection with some of the most pressing questions in international development today, including definitions and theories of development; international development aid and actors; local and international priorities; and the future of international development. Education - a key of intervention to improve living conditions for many of the world's poor and politically and socially excluded - is a common thread across the course.

Grading: Grad Steinhardt Graded

Repeatable for additional credit: No

INTE-GE 2864 Intl Devt and Educ: Practice in Ghana (3 Credits)

Focuses on the connection between international development and education scholarship and on-the-ground practice. Topics include the role of education in international development, translation from theory to practice, challenges and opportunities for education in developing contexts, best practices, and lived experiences. Course emphasizes Field available for additional information in footer Ghanaian education, as approached by local, national, and international development actors, and site visits and interactions with schools, state agencies, and non-governmental organizations.

Grading: Graded

Repeatable for additional credit: No

INTE-GE 2865 Intl Devt and Educ: Experiences from the Field (3 Credits)

How do local and international actors think about the role of education in international development, and how does this translate to practice? What are the practical challenges and opportunities of implementing education programming in the global south? Through virtual field visits around the world and meetings with professionals, students learn how international development education actors engage in their work, reflect on the importance of flexibility and context, and deepen their understanding of education and international development.

Grading: Grad Steinhardt Graded

Repeatable for additional credit: No

INTE-GE 2866 Research in Practice: Mapping International Engagement (3 Credits)

Learning-through-doing on a faculty-led research project to map international engagement at NYU Steinhardt, this experiential learning course is designed for students who want to gain experience in project scoping and planning, collecting and analyzing quantitative and/or qualitative data, working as a member of a research team, producing different forms of data visualization, and communicating findings to stakeholders. Students leave with marketable research skills, insights into international higher education, and valuable experience in the consulting profession.

Grading: Grad Steinhardt Graded
