

MUSIC THEORY AND COMPOSITION (MPATC-UE)

MPATC-UE 8 Aural Compr in Music III (1 Credit)

Typically offered Fall

Training in intermediate musicianship skills emphasizing sight-singing and dictation. Course activities are correlated with the materials of harmony and counterpoint for the diatonic, chromatic, and posttonal repertoires.

Grading: Ugrd Steinhardt Graded

Repeatable for additional credit: No

MPATC-UE 16 String Pract:Composers (2 Credits)

Typically offered Fall

A review of fingerings and positions for violin, viola, cello and double bass playing and composition. Examination and performance of scores written for strings. Projects in composition for strings throughout the semester.

Grading: Ugrd Steinhardt Graded

Repeatable for additional credit: No

MPATC-UE 17 Woodwind/Brass Pract:Com (2 Credits)

Typically offered Spring term of even numbered years

A review of traditional and experimental fingerings and effects on wind instruments. Examinations and performance of scores written for winds. Projects in composition for winds throughout the semester.

Grading: Ugrd Steinhardt Graded

Repeatable for additional credit: No

MPATC-UE 21 Composition(Prvt Lsn) for Non-Majors (2-4 Credits)

Typically offered Fall, Spring, and Summer terms

Composition in all forms and styles including electronic. Electronic laboratory by assignment.

Grading: Ugrd Steinhardt Graded

Repeatable for additional credit: Yes

MPATC-UE 35 Music Theory I (2 Credits)

Typically offered Fall

An introduction to melody, harmony and counterpoint in the music of diatonic tonality through projects in directed composition and analysis.

Grading: Ugrd Steinhardt Graded

Repeatable for additional credit: No

MPATC-UE 37 Music Theory III (2 Credits)

Typically offered Fall

Hands-on work with the materials of chromatic tonality and an introduction to complex forms.

Grading: Ugrd Steinhardt Graded

Repeatable for additional credit: No

MPATC-UE 92 Collegium & Program Sem (0 Credits)

Typically offered Fall and Spring

All undergraduate music majors meet in Collegium six times each semester to discuss broad issues of the music profession, career opportunities, and department matters. During the remaining weeks students meet with members of their major program for visits with specialists in their field and for programmatic discussions.

Grading: Ugrd Steinhardt Pass/Fail

Repeatable for additional credit: Yes

MPATC-UE 1000 Ind Study (1-6 Credits)

Typically offered Fall, Spring, and Summer terms

It should be noted that independent study requires a minimum of 45 hours of work per point. Independent study cannot be applied to the established professional education sequence in teaching curricula. Each departmental program has established its own maximum credit allowance for independent study. This information may be obtained from a student's department. Prior to registering for independent study, each student should obtain an Independent Study Approval Form from the adviser.

Grading: Ugrd Steinhardt Graded

Repeatable for additional credit: Yes

MPATC-UE 1015 Form and Analysis (2 Credits)

Typically offered Fall

Techniques and concepts applied to music literature of the eighteenth and nineteenth centuries. Synthesis through analysis, performance, and composition using contrapuntal and harmonic textures.

Grading: Ugrd Steinhardt Graded

Repeatable for additional credit: No

MPATC-UE 1018 16th-Century Counterpoint (2 Credits)

Typically offered Fall and Spring

Study of compositional approaches in the 16th and 18th centuries including species counterpoint and fugue.

Grading: Ugrd Steinhardt Graded

Repeatable for additional credit: Yes

MPATC-UE 1019 18th-Century Counterpoint (2 Credits)

Typically offered Fall

Study of compositional approaches in the 18th century. Students will engage with 18th-century practice through analysis and model composition.

Grading: Ugrd Steinhardt Graded

Repeatable for additional credit: Yes

MPATC-UE 1020 Orchestration: Strings (2 Credits)

Typically offered Fall

Examination of string instruments' range, dynamics, articulation, special effects and extended techniques. Score reading from the Baroque to the present. Preparation of score and parts, including traditional and aleatroic notation.

Grading: Ugrd Steinhardt Graded

Repeatable for additional credit: Yes

MPATC-UE 1021 Composition (Private Lessons) (2-4 Credits)

Typically offered Fall, Spring, and Summer terms

Composition in all forms and styles including electronic. Electronic laboratory by assignment.

Grading: Ugrd Steinhardt Graded

Repeatable for additional credit: Yes

MPATC-UE 1022 Music Theory for Non-Majors (3 Credits)

This course introduces students to the basic elements of melody, harmony, and rhythm in music and how they combine to create musical meaning. A major emphasis of the course is hands-on music experimentation, including guided in-class performance and the use of music apps, software, and other technology. Students study a diverse body of musical examples drawn from classical, popular, and world music via projects completed in the classroom and in New York City. No prior musical experience required. This course does not count toward credits for the music major or minor

Grading: Ugrd Steinhardt Graded

Repeatable for additional credit: No

MPATC-UE 1025 Orchestration: Woodwinds & Percussion (2 Credits)*Typically offered Spring*

Examination of wind and percussion instruments' range, dynamics, articulation, special effects and extended techniques with regard to historical style. Score reading with emphasis on transposition. Score layout and part preparation

Grading: Ugrd Steinhardt Graded**Repeatable for additional credit:** No**MPATC-UE 1030 Group Composition (Non-Majors) (4 Credits)**

This umbrella course, taught in small groups of students, introduces students to music composition in an environment that stimulates discussion and collaboration. Students are encouraged to collaborate in writing pieces and to critique each other's works. Separate topics courses focus on a particular discipline in the field of music creation, such as songwriting; scoring for movies, TV, and video games; acoustic concert music; or electronic music production.

Grading: Ugrd Steinhardt Graded**Repeatable for additional credit:** No**MPATC-UE 1031 Group Composition (Non-Majors): Beginner Songwriting (4 Credits)**

This course, taught in small groups of students, serves as an introduction to songwriting in an environment that stimulates discussion and collaboration. Students in the group will be encouraged to collaborate in writing pieces, and to critique each other's works.

Grading: Ugrd Steinhardt Graded**Repeatable for additional credit:** Yes**MPATC-UE 1032 Group Composition (Non-Majors): Beginner Screen Scoring (4 Credits)**

This course, taught in small groups of students, serves as an introduction to music composition for film, TV, videogames, and commercial media in an environment that stimulates Field available for additional information in footer discussion and collaboration. Students in the group will be encouraged to collaborate in writing pieces, and to critique each other's works.

Grading: Ugrd Steinhardt Graded**Repeatable for additional credit:** Yes**MPATC-UE 1033 Group Composition (Non-Majors): Beginner Concert Music (4 Credits)**

This course, taught in small groups of students, serves as an introduction to music composition for the concert stage in an environment that stimulates discussion and collaboration. Students in the group will be encouraged to collaborate in writing pieces, and to critique each other's works.

Grading: Ugrd Steinhardt Graded**Repeatable for additional credit:** Yes**MPATC-UE 1049 Contemporary Scoring: Creative & Technological Practices (2-3 Credits)***Typically offered Fall and Spring*

This hands-on course will both sharpen a composer's aesthetic & raise the level of proficiency in their use of an industry-standard complex of the software necessary for composing & producing in film and media production. In tandem with incorporating the ever-increasing quality & availability of digital audio production software, including virtual instruments, media composers will deliver the pristine, professional sounding music now expected for film, TV, video games, songs & even Broadway.

Grading: Ugrd Steinhardt Graded**Repeatable for additional credit:** No**MPATC-UE 1050 MIDI and DAW Production Studio (1 Credit)**

This studio course is centered on in-class discussion and demonstration of student works created using a DAW (Digital Audio Workstation) such as Logic Pro, Sample Libraries, Synthesizers, and Sound Processors. During the class, students and faculty will provide feedback to student projects in order to improve the overall quality of the music production. In addition, there will be presentations and discussion of new releases of sample libraries, audio processors, and synthesizers, as well as new features from updates on the DAW.

Grading: Ugrd Steinhardt Pass/Fail**Repeatable for additional credit:** Yes**MPATC-UE 1052 Introduction to Songwriting and Production (2 Credits)**

This course provides an overview of the essentials of songwriting and record production, with a focus on contemporary popular genres. Through the study of the fundamentals of critical listening, functional harmony, songwriting methods, song structure, and production technology, such as digital audio workstations (DAWS), drum machines, and synthesizers, students will build the foundational knowledge necessary to pursue a concentration in songwriting and production. Through weekly listening to both historical and contemporary popular songs and records, students will develop a familiarity with and an understanding of the tools employed in the repertoire of a broad set of genres.

Grading: Ugrd Steinhardt Graded**Repeatable for additional credit:** No**MPATC-UE 1067 Music History I (2 Credits)***Typically offered Fall and Spring*

The history of music and musical styles from the antiquity through the Renaissance.

Grading: Ugrd Steinhardt Graded**Repeatable for additional credit:** No**MPATC-UE 1068 Music History II: Baroque & Classical (2 Credits)***Typically offered Fall and Spring*

The history of music and musical styles from the baroque period to the present.

Grading: Ugrd Steinhardt Graded**Repeatable for additional credit:** No**MPATC-UE 1077 Music History III (2 Credits)***Typically offered Fall and Spring*

The study and analysis of 19th and early 20th century works in various genres associated with the "Romantic Era," issues relating to racial and gender diversity during that period, and connections to late 20th and 21st century musical culture.

Grading: Ugrd Steinhardt Graded**Repeatable for additional credit:** No**MPATC-UE 1078 Music History IV: Twentieth Century (2 Credits)***Typically offered Fall and Spring*

Evolution of contemporary compositional techniques traced from impressionism to the latest avant-garde experiences.

Grading: Ugrd Steinhardt Graded**Repeatable for additional credit:** No

MPATC-UE 1080 Composer's Ensemble (3 Credits)*Typically offered Fall and Spring*

NYU Composers Ensemble is an opportunity for composition majors to gain performance and recording experience through workshoping new, evolving compositions with live musicians. Members of the ensemble compose and perform in the group. All acoustic instruments and vocal types are welcome, as are electronic and software-based composers/performers. There is a public, recorded performance and recording session for each student's compositions in the Dolan Studio.

Grading: Ugrd Steinhardt Graded**Repeatable for additional credit:** Yes**MPATC-UE 1088 Orchestration I (3 Credits)**

This introductory course to instrumentation and orchestration covers the basics of writing for orchestral instruments, while also introducing students to the creative process of orchestral thinking. Through a combination of online self-learning modules, in-class demonstrations and workshops with performers, class discussion and score analysis, and readings of the students' work by diverse ensembles, the students learn the intricacies of idiomatically writing for orchestral instruments and typical orchestral ensembles.

Grading: Ugrd Steinhardt Graded**Repeatable for additional credit:** No**MPATC-UE 1090 Conducting (1 Credit)**

In this umbrella course, students practice the techniques and methodologies of music conducting for a varied set of situations, levels, and ensembles.

Grading: Ugrd Steinhardt Graded**Repeatable for additional credit:** No**MPATC-UE 1091 Conducting: Foundations (1 Credit)**

In this studio class, students develop foundational conducting skills for the professional conductor. This includes specific techniques associated with choral conducting, instrumental conducting, and conducting synchronized with visual media. Topics include arms/baton technique, rehearsing the ensemble, score study techniques, and conducting with a click track.

Grading: Ugrd Steinhardt Graded**Repeatable for additional credit:** No**MPATC-UE 1092 Junior Experience (1 Credit)***Typically offered Fall and Spring*

In this course, students present their compositional work in a public performance. Students receive guidance and resources for the presentation of a marathon style concert featuring work by all Juniors in the composition program. Students will work with the instructor to coordinate and develop all aspects of the concert experience including production, marketing, and programming. The class will be a combination of group and individual meetings culminating in a marathon concert at the end of the semester.

Grading: Ugrd Steinhardt Graded**Repeatable for additional credit:** Yes**MPATC-UE 1093 Conducting: Intermediate Instrumental (2 Credits)***Typically offered Fall*

In this studio class, students build upon foundational conducting skills to develop specific techniques to conduct instrumental ensembles with a focus on the orchestral repertoire. Students practice seminal pieces of the history of western orchestral music that serve as case studies to develop a sophisticated set of instrumental conducting skills.

Grading: Ugrd Steinhardt Graded**Repeatable for additional credit:** No**MPATC-UE 1094 Conducting: Advanced Musical Theater (3 Credits)**

In this studio class, students work on specific advanced skills required for the professional music theater conductor. They study works from the music theater repertoire, with a specific emphasis on shows of various periods and genres. Students develop a comprehensive approach to rehearsal planning and structure, including specific strategies that allow time optimization.

Grading: Ugrd Steinhardt Graded**Repeatable for additional credit:** Yes**MPATC-UE 1095 Conducting: Advanced Instrumental (3 Credits)**

In this studio class, students work on specific advanced skills required for today's professional orchestral and ensemble conductor. They practice challenging pieces from the orchestral repertoire, with a specific emphasis on contemporary pieces of music. Students also develop a comprehensive approach to rehearsal planning and structure, including specific strategies that allow time optimization.

Grading: Ugrd Steinhardt Graded**Repeatable for additional credit:** No**MPATC-UE 1098 Orchestration II (3 Credits)**

This introductory course to instrumentation and orchestration covers the basics of writing for the most important orchestral instruments, and introduces the students to the creative process of orchestral thinking. Students learn by a combination of online self-learning modules, in-class demonstrations, workshops with performers, class discussion and score analysis, and performances of the students' work by diverse ensembles. The students learn the intricacies of idiomatically writing for orchestral instruments and for the most usual orchestral ensembles.

Grading: Ugrd Steinhardt Graded**Repeatable for additional credit:** No**MPATC-UE 1110 Advanced Orchestration (3 Credits)**

This umbrella course examines the principles of orchestral scoring through detailed analysis of seminal scores and written orchestration projects. Topics courses enable students to focus their studies on specialized applications, such as orchestration of music for the concert hall, orchestration for screen music, and contemporary instrumentation and orchestration techniques.

Grading: Ugrd Steinhardt Graded**Repeatable for additional credit:** No**MPATC-UE 1112 Advanced Orchestration: Concert Music (3 Credits)**

The principles of orchestral scoring are examined through detailed score analysis and writing projects, as well as related topics including transposition, score format, and new notation. Classical through contemporary styles.

Grading: Ugrd Steinhardt Graded**Repeatable for additional credit:** Yes**MPATC-UE 1113 Advanced Orchestration: Screen Scoring (3 Credits)**

This hands-on course provides the students with a practical toolkit to enable them to become proficient orchestrators in the field of film and media production. Using examples from traditional and contemporary practices, students analyze seminal scores written for the screen, orchestrate diverse exercises, and evaluate the results of their work by listening to live recordings of their exercises.

Grading: Ugrd Steinhardt Graded**Repeatable for additional credit:** Yes

MPATC-UE 1123 Context and Analysis in World Music (2 Credits)

This course introduces students to selected musical sounds and practices from cultural groups around the world. Through exposure to distinct musical cultures, from traditional to transnational, students learn to define and apply musical concepts such as rhythm, timbre, melody, and form. The socio-cultural context and relevance of musical practices are also examined, touching on issues such as race, gender, embodied participation, technologies of production and circulation, and relationship to religion, the state, and other social structures.

Grading: Ugrd Steinhardt Graded

Repeatable for additional credit: No

MPATC-UE 1130 Seminar in Composition (3 Credits)

This umbrella course examines contemporary issues in music composition through coordinated individual compositional project

Grading: Ugrd Steinhardt Graded

Repeatable for additional credit: Yes

MPATC-UE 1131 Seminar in Composition: Chamber Ensembles and Electronics (3 Credits)

This seminar explores the ins-and-outs of writing for small ensemble and electronics. Students explore each instrument, pertinent repertoire and musical examples; compose a piece for an ensemble-in-residence; premiere works in a concert setting; and have works recorded by the ensemble. Through interactions with the ensemble-in-residence, compositions will be developed in three stages: early semester brainstorming; mid semester reading; dress rehearsals before the final concert.

Grading: Ugrd Steinhardt Graded

Repeatable for additional credit: Yes

MPATC-UE 1132 Seminar in Composition: Advanced Scoring Toolkit (3 Credits)

This seminar provides both theoretical and technological foundations on ways of producing unique sounds using acoustic instruments – often in tandem with digitally processed or sampled sound. The course also introduces students to the concept of sampling and the creation of custom-made sample libraries, as well as the process of writing music for improvisers (jazz combo, soloists, etc.)

Grading: Ugrd Steinhardt Graded

Repeatable for additional credit: Yes

MPATC-UE 1133 Seminar in Composition: String Quartet I (3 Credits)

This is the first of a two-seminar sequence that provides analytical and practical approaches to composition for the string quartet. Over the course of two semesters students write a progressive series of studies starting with a solo, followed by a duo, trio and finally a full quartet. Professional musicians workshop these pieces in class, culminating in a concert by a guest quartet in residence. Interwoven with these workshops students analyze and discuss contemporary quartet repertoire from the past 50 years.

Grading: Ugrd Steinhardt Graded

Repeatable for additional credit: No

MPATC-UE 1134 Seminar in Composition: String Quartet II (3 Credits)

This is the second of a two-seminar sequence that provides both analytical and practical approaches to composition for the string quartet. This seminar includes workshops and performances of a full composition for String Quartet as well as student presentations on selected contemporary quartet repertoire.

Grading: Ugrd Steinhardt Graded

Repeatable for additional credit: No

MPATC-UE 1139 Seminar in Composition: Innovation (3 Credits)

In this workshop on musical innovation, our unbridled artistry, open dialogue, and free expression will culminate in our final performance: *innOVATION*. We will embark on an eclectic journey of surprises, exceptions and extremes by comparing contemporary avant-garde trends to fringe music/multimedia across time, location and style. Our inclusive approach to sonic, technological, structural and conceptual experimentation welcomes students interested in musical innovation from any field, be it composition, multimedia, technology, performance, theory, education, or science.

Grading: Ugrd Steinhardt Graded

Repeatable for additional credit: No

MPATC-UE 1156 Rights, Revenue & Relationships: Career-Building for Music Creators (2 Credits)

Typically offered Fall

Students pursuing careers in music creation – songwriters, composers, instrumentalists, vocalists, engineers, producers, and others – need to be well-versed in the myriad ways they can protect and maximize the rights, revenue streams, and professional relationships that flow from their work. As music marketplace opportunities and distribution channels widen and diversify, music creators have far greater choices than ever before. Students explore the essential elements required to build a career and a life in music, examining them from the creator's perspective.

Grading: Ugrd Steinhardt Graded

Repeatable for additional credit: No

MPATC-UE 1157 Music Copyright: Foundation and Application (2 Credits)

The emphasis is on the application of knowledge gained by the study of music copyright laws through research and participation in study groups. Study groups (of 4 students each) present litigations on behalf of plaintiffs or defendants in selected cases via in-class presentations.

Grading: Ugrd Steinhardt Graded

Repeatable for additional credit: No

MPATC-UE 1190 Song Writers Forum (2-3 Credits)

Typically offered Fall and Spring

Songwriters Forum is a practical writing course designed to help students become the best music creators they can be, in styles, genres, and approaches they define. While the focus tends to be on popular song, the curriculum addresses any and all songwriting. Forum students analyze, review, and, most of all, explore the tools (including collaboration) employed by composers and lyricists whose work has distinguished them as important practitioners of the art and craft of song. The goal is improved writing, with all other elements and aspects directed towards it.

Grading: Ugrd Steinhardt Graded

Repeatable for additional credit: Yes

MPATC-UE 1192 Music Composition Undergraduate Capstone (1 Credit)

In this course, students present their compositional work in a public performance. Students receive guidance and resources for the presentation of a marathon style concert featuring work by all Juniors in the composition program. Students will work with the instructor to coordinate and develop all aspects of the concert experience including production, marketing, and programming. The class will be a combination of group and individual meetings culminating in a marathon concert at the end of the semester.

Grading: Ugrd Steinhardt Graded

Repeatable for additional credit: Yes

MPATC-UE 1195 Songwriting History and Criticism (2 Credits)*Typically offered Fall*

This course will explore the history & development of classic popular music of the past 60 years. Through a detailed study of 14 profoundly influential songs & recordings, we will examine how art affects, & is affected by, its cultural & historical moment. Over the course of the semester, students will engage in musical analysis, critical listening, & a detailed study of songwriting & recording techniques. They will also view archival films of relevant musical artists, & engage in close analysis of selected musical performances.

Grading: Ugrd Steinhardt Graded**Repeatable for additional credit:** No**MPATC-UE 1196 Songwriting History and Criticisms: 14 Songs (2-3 Credits)**

This course will explore the history and development of classic popular music of the past 60 years, with a focus on the period 1980-2005. Through a detailed study of 14 profoundly influential songs and recordings, we will examine how art affects, and is affected by, its cultural and historical moment. Students will engage in musical analysis, critical listening, and a detailed study of songwriting and recording techniques. They will also view archival video of relevant musical artists, films, and news events and engage in close analysis of select musical performances.

Grading: Ugrd Steinhardt Graded**Repeatable for additional credit:** No**MPATC-UE 1247 Screen Scoring Foundations: Harmony and Narrative (3 Credits)**

This course provides the theoretical foundations that serve as the building blocks for the music for the screen. Divided into two areas that eventually merge, the course explores the application of harmonic and melodic principles for screen music, as well as the study of the foundations of narrative theory and storytelling. Throughout a set of theoretical readings, analyses, and creative assignments, the students will develop a set of techniques to produce music that generates meaning and that enhances the story and the narrative as a whole.

Grading: Ugrd Steinhardt Graded**Repeatable for additional credit:** No**MPATC-UE 1248 Composing for Film and Multimedia (3 Credits)***Typically offered Spring*

Addressing the matrix of directorial vision and visual, narrative, and dramatic world of a film, this course will examine a broad range of musical approaches and those requirements necessary for composing music for film and multimedia. Cultural, cinematic, and musical codes will be discussed and critiqued through critical analyses of seminar scores, scoring assignments, and collaborative director/composer interactions.

Grading: Ugrd Steinhardt Graded**Repeatable for additional credit:** No**MPATC-UE 1301 Theory & Practice I: Global Approaches to Music (2 Credits)**

An introduction to the tools and vocabulary needed for critically engaging with music from a broad range of styles and repertoire in preparation for upper-level courses in the music theory sequence. Topics include rhythmic and metric organization, melodic structure, ornamentation, instrumental families, texture, tuning systems, harmonic syntax, and basic voice-leading techniques representative of music in Western diatonic harmony, popular music and film, and non-Western musics

Grading: Ugrd Steinhardt Graded**Repeatable for additional credit:** No**MPATC-UE 1302 Aural Skills I: Global Approaches to Music (1 Credit)**

Techniques of music listening developed through musical sight-singing, dictation, and aural analysis. Topics are coordinated with the co-requisite course Theory & Practice I. Students learn techniques for critically listening to, analyzing, and notating elements of rhythmic and metric organization, instrumentation, texture, and diatonic melodic and harmonic pitch structure in a broad range of music from Western classical music, popular music and film, and non-Western music.

Grading: Ugrd Steinhardt Graded**Repeatable for additional credit:** No**MPATC-UE 1310 Theory & Practice II (2 Credits)**

Intermediate level music theory. Courses under this general title provide an introduction to phrase structure, formal analysis, advanced diatonic harmony, basics in chromatic harmony including modulation and tonicization, and advanced topics in rhythm and meter relevant to a particular style of repertoire. Skills build on techniques developed in the prerequisite course, Theory & Practice I.

Grading: Ugrd Steinhardt Graded**Repeatable for additional credit:** No**MPATC-UE 1311 Theory & Practice II: Tonal Harmony & Voice Leading (2 Credits)**

Theory and analysis of diatonic common-practice classical repertoire with an introduction to chromatic harmony and small forms. Topics include phrase structure, voice leading, sequences, secondary functions, tonicization, modulation, and advanced topics in rhythm and meter in common-practice Western music. The course builds on composition and analysis skills developed in Theory & Practice I, and introduces students to techniques in four-part contrapuntal writing, arranging, and model composition.

Grading: Ugrd Steinhardt Graded**Repeatable for additional credit:** No**MPATC-UE 1312 Theory & Practice II: Popular Music (2 Credits)**

Theory and analysis of popular music. Popular music, defined broadly, includes pop, rock, hip hop, rap, metal, jazz, folk, and musical theater and film repertoire. Topics include scales and modes, lead sheet and Nashville number notation, phrase structure, song forms, harmonic syntax, loops and harmonic chord schemas, tonicization and modulation, and rhythmic and timbral analysis in popular music. Students will develop basic proficiency in a DAW and music notation program. This course will culminate in a final composition or analysis project.

Grading: Ugrd Steinhardt Graded**Repeatable for additional credit:** No**MPATC-UE 1320 Aural Skills II (1 Credit)**

Intermediate level aural skills. Courses under this general title introduce students to listening and sight-reading techniques coordinated with topics in the corresponding co-requisite Theory & Practice II course. Students learn techniques for critically listening to, analyzing, and notating elements in advanced rhythm and meter, formal structure, diatonic harmony, and basic chromatic harmony including secondary functions and modulation relevant to a particular style of repertoire. Skills build on techniques developed in the prerequisite course, Aural Skills I.

Grading: Ugrd Steinhardt Graded**Repeatable for additional credit:** No

MPATC-UE 1321 Aural Skills II: Tonal Harmony & Voice Leading (1 Credit)

Techniques of music listening developed through musical sight-singing, dictation, and aural analysis. Topics are coordinated with the co-requisite course, Theory & Practice II: Tonal Harmony & Voice Leading. This course builds on skills developed in Aural Skills I. Students learn techniques for critically listening to, analyzing, and notating four-part diatonic harmony and basic chromatic harmony including secondary functions and modulation, advanced rhythm and meter, chromatic melodies, and instrumentation.

Grading: Ugrd Steinhardt Graded

Repeatable for additional credit: No

MPATC-UE 1322 Aural Skills II: Popular Music (1 Credit)

Techniques of music listening developed through musical sight-singing, dictation, and aural analysis. Topics are coordinated with the co-requisite course, Theory & Practice II: Popular Music. This course builds on skills developed in Aural Skills I. Students learn techniques for critically listening to, analyzing, and notating musical elements of instrumentation, sound production and timbre, advanced rhythm and meter, loops and harmonic chord schemas, advanced diatonic harmony, and basic chromatic harmony including secondary functions and modulation.

Grading: Ugrd Steinhardt Graded

Repeatable for additional credit: No

MPATC-UE 1330 Advanced Theory & Practice (2 Credits)

Advanced level music theory. Courses under this general title introduce students to advanced music theoretic and analytical topics focusing on (i) the examination of a particular repertory and the theoretical/analytical tools developed for it (e.g. non-Western, popular, 19th/20th-century chromatic harmony) or (ii) the study and application of compositional styles or techniques (e.g. counterpoint or model composition). The courses build on techniques developed in Theory & Practice I and II.

Grading: Ugrd Steinhardt Graded

Repeatable for additional credit: No

MPATC-UE 1332 Advanced Theory & Practice: Post Tonal and Contemporary Music (2 Credits)

Introduction to the materials and organizing principles of 20th and 21st century concert music and jazz. Students will engage with a range of analytical methods and compositional techniques applicable to a broad range of repertoire incorporating advanced chromaticism, modes, extended tonality, atonality, jazz harmony, and contemporary techniques in metric organization and form. The course will culminate in a final paper or presentation analyzing a 20th or 21st century work.

Grading: Ugrd Steinhardt Graded

Repeatable for additional credit: No

MPATC-UE 1333 Advanced Theory & Practice: Non-Western Music (2 Credits)

The study of non-Western theories of music. This course examines topics in pitch, rhythm, and formal structure in selected music from Africa, Latin America, East Asia, India, and the Middle East. Students will acquire a foundational understanding of the transcription and analysis of non-Western art and folk music, as well as a basic introduction to theory and performance practice by guest artists. The course will culminate in a final analysis project.

Grading: Ugrd Steinhardt Graded

Repeatable for additional credit: No

MPATC-UE 1334 Advanced Theory & Practice: Counterpoint in the Digital Age (2 Credits)

Digital audio workstations (DAW), such as Garage Band, Audacity, and Ableton provide students with a hands-on polyphonic platform for studying and composing contrapuntal music. This course aims to bridge traditions and practices to accommodate students in various specializations and to impart a creative understanding of counterpoint and polyphonic thinking relevant to a broad range of musical repertoire. Working in DAW, students practice contrapuntal techniques and styles using different types of audio material. The course culminates in a final composition project.

Grading: Ugrd Steinhardt Graded

Repeatable for additional credit: No

MPATC-UE 1340 Advanced Aural Skills (1 Credit)

Digital audio workstations (DAW), such as Garage Band, Audacity, and Ableton provide students with a hands-on polyphonic platform for studying and composing contrapuntal music. This course aims to bridge traditions and practices to accommodate students in various specializations and to impart a creative understanding of counterpoint and polyphonic thinking relevant to a broad range of musical repertoire. Working in DAW, students practice contrapuntal techniques and styles using different types of audio material. The course culminates in a final composition project.

Grading: Ugrd Steinhardt Graded

Repeatable for additional credit: No

MPATC-UE 1342 Advanced Aural Skills: Post Tonal and Extended Chromaticism (1 Credit)

Continued development of sight-singing, dictation, and aural analysis skills developed in the prerequisite course, Advanced Aural Skills: Chromatic Harmony. Students will critically listen to, transcribe, and perform music incorporating modes, chromatic and jazz harmony, extended tonality, and atonality. Advanced rhythmic topics include polyrhythm, syncopation, swing, mixed meter, and metric modulation.

Grading: Ugrd Steinhardt Graded

Repeatable for additional credit: No

MPATC-UE 1343 Advanced Aural Skills: Sight-Singing (1 Credit)

Practice in advanced melodic and rhythmic sight-singing. This course builds on skills developed in Aural Skills I and II, emphasizing the performance of melodic, harmonic, and rhythmic material using solfège. Students learn strategies for improvisation and advanced sight reading in a broad range of styles and genres including repertoire from jazz, classical, and popular music.

Grading: Ugrd Steinhardt Graded

Repeatable for additional credit: No

MPATC-UE 1344 Advanced Aural Skills: Popular Music Transcription (1 Credit)

Practice in the critical listening and transcription of popular music. Advanced topics in rhythm and meter, timbre, chromatic and extended harmonies, and melody. Building on transcription skills acquired in Aural Skills I and II, students learn techniques for transcribing recorded vocal and instrumental material in popular music. Defined broadly, "popular music" includes pop, rock, hip hop, R&B, blues, rap, disco, indie, metal, jazz, folk, and musical theater and film repertoire. The course will culminate in a final transcription project.

Grading: Ugrd Steinhardt Graded

Repeatable for additional credit: No

MPATC-UE 1424 Composer's Forum (3 Credits)

Students attend weekly presentations from composers, and concerts. Composer guests introduce students to their aesthetic world by discussing, analyzing, and playing recordings of some of their most relevant works. Students have the opportunity to network with a diverse range of visiting composers, which helps them create contacts for their professional development. Some of the classes include attending concerts in which works from living composers are featured, including NYU students and faculty.

Grading: Ugrd Steinhardt Graded

Repeatable for additional credit: Yes

MPATC-UE 1500 Film Music: Historical Aesthetics/Perspectives (2 Credits)

Typically offered Fall

This course explores the aesthetics and history of music in cinema. Through examination of scenes from seminal films, assigned readings of historical texts, lectures, and class discussion, the course examines the history of cinema from the viewpoint of its music and provides students with the tools to cogently analyze music for cinema. During the class, students learn to apply historical, cultural, and semiotic analytical methods to unfold the cultural and artistic significance of a movie and its music. No prior training in music is required.

Grading: Ugrd Steinhardt Graded

Repeatable for additional credit: No

MPATC-UE 1501 Narrative and Theatrical Songwriting (3 Credits)

This course introduces students to the practice and discipline of writing narrative and theatrical songs (those that tell a story or function as part of a larger one) through a survey of the literature, an examination of the principles and tools employed in such songs, and guided creation of individual songs and larger works. Analyses of material from the repertoire serve as a basis for inspiring new work. Emphasis on comprehending and mastering the writing process, and responding to the modern cultural context in which this work is created.

Repeatable for additional credit: No

MPATC-UE 1634 Drums, Drum Machines and DAWs (2 Credits)

This course examines the concept of rhythm, its use primarily in contemporary songwriting, screen scoring, and concert composition, and the tools employed in its integration in the music created in those fields. Students explore a wide range of stylistic approaches to the art of drumming, programming in the digital audio workstation, and beat-making within the context of music creation, arranging and performing. Students gain a historical perspective through an exploration of the rhythmic styles of the popular music of the past 60 years.

MPATC-UE 9008 Aural Compr In Music III (1 Credit)

Aural Comprehension III is a one-credit course, building on the foundations you have created in AC I and II. The two weekly class sessions will be devoted to group work in sight-singing and dictation: melodic, rhythmic and harmonic – and in listening to longer segments of work to sharpen your perception of musical form. You will be expected to keep up a regular practice of these skills outside of class. In addition, we will arrange tutorials (at least three per semester) for individual work and assessment. The musical materials of AC III will be taken mostly from 19th-century sources, reinforcing your work in Music Theory and Music History III. We will also work with more chromatic music of the 18th century, as well as jazz, popular music and relevant world cultures.

Repeatable for additional credit: No

MPATC-UE 9009 Aural Comp in Music IV (1 Credit)

In Aural Comprehension IV the students will continue their exploration of the main elements of music - melody, harmony, rhythm, and form - through active listening, sight-singing, and dictation. Course activities are correlated with materials from Music Theory IV. The tonal material will remain a part of our exercises, but we will work with elements of atonal music and complex rhythms too. Besides regular sight singing, prepared singing, dictations and transcriptions of recorded music we will also listen to orchestral instrumentation, identify musical forms from listening to recordings, try to hear overtones, micro-intervals, improvise second voice to a song and write and sing a short piece of music.

Repeatable for additional credit: No

MPATC-UE 9037 Music Theory III (2 Credits)

In this course students will follow up with their harmony studies. We will go through harmonic instances of advanced chromaticism of the late 19. century and up to the very edge of tonality. Emphasis will be put on assignments and exercises in order to develop good creative and analytical skills in harmony. Concurrently we will examine the main formal principles of tonal music and apply our knowledge in analysis of selected compositions. We will use various analytical approaches and test them on a large scale of historical musical material. Every student will be due to realize at least one analysis of assigned composition during the semester.

Repeatable for additional credit: No

MPATC-UE 9038 Music Theory IV (2 Credits)

In this course students will deepen their knowledge of music theory. We will learn and practice advanced harmony and form in tonal music as well as selected topic of 20th century music theory and practice. We will start from chromatic harmony of the late 19. Century and go through instances of atonal, serial music up to special 20th century composition techniques and forms. Emphasis will be put on assignments and exercises in order to develop good creative and analytical skills. We will examine the main formal principles of post-tonal music and apply our knowledge in analysis of selected compositions. We will use various analytical approaches and test them on a large scale of musical material. Every student will be due to realize at least one analysis of assigned composition during the semester.

MPATC-UE 9068 Music Hist II: Baroque & Class (2 Credits)

An exploration of baroque and classical styles through the works of composers from 1600-1800, including the origins of the style, the confluence of stylistic practices and the evolution of classicism. Students will be able to recognize, describe, and discuss features of both styles. Students will demonstrate an understanding of the origins of classicism including the differences from Baroque style as manifest in musical practice. Students will be able to recognize, identify, and discuss works typical of the classical period including symphony, concerto, opera, and solo/chamber works including the sonata and string quartet.

Grading: Ugrd Steinhardt Graded

Repeatable for additional credit: No

MPATC-UE 9077 Music History III (2 Credits)

An exploration of 19th Century musical styles, chiefly romanticism, through the works of composers from 1790-1880. Students will be able to recognize, describe, and discuss features of romantic style. Students will demonstrate an understanding of the origins of romanticism including the differences from Classical style as manifest in musical practice. Students will be able to recognize, identify, and discuss works typical of the romantic period including symphony, symphonic poem, concerto, opera, lied (song), and solo/chamber works including the sonata and string quartet.
