MULTIDISCIPLINARY (MULT2-CS)

MULT2-CS 9110 Mac OS (0 Credits)
An understanding of Apple's Mac Operating System (OS) is essential for aspiring graphic designers. Mac OS is the system of choice for those pursuing career paths in any creative profession. Review the unique aspects of the Mac OS including exploring the dock, navigating Finder windows, configuring user accounts, connecting to a server, accessing the Internet, and networking peripherals. See demonstrations of Mac OS X applications, such as iPhoto, iTunes, and iMovie.
Grading: SPS Non-Credit Graded
Repeatable for additional credit: Yes
