

NEUROLOGY (NEURO-ML)

NEURO-ML 2002 Neurology and Rehabilitation Medicine Clerkship (4 Credits)

"During this four-week, phase two clerkship, students learn the underlying principles and skills necessary to recognize and manage common neurologic diseases."

Grading: SOM Graded

Repeatable for additional credit: Yes

NEURO-ML 4111 Neurology Elective (4 Credits)

The Neurology elective is an opportunity for students interested in neurology to gain further exposure and experience beyond the clerkship. Experience can be tailored to student's interests.

Grading: SOM Graded

Repeatable for additional credit: Yes

NEURO-ML 4117 Neurology Elective (2 Credits)

"There are two primary goals of this clerkship: first, to become proficient at obtaining a neurologic history and performing a neurologic exam; and, second, to become familiar with basic neurologic disease processes, their presentation, work-up, and treatment. Students also become familiar with the psychosocial impact of chronic and acute neurologic disease on patients and their families."

Grading: SOM Graded

Repeatable for additional credit: Yes
