

SOCIOLOGY (SOC-GA)

SOC-GA 1301 Design of Social Research (4 Credits)

Typically offered Fall

This course, taken in the fall semester, is a comprehensive introduction to quantitative research in the social sciences. The course focuses on foundational ideas of sociological research, including strengths and weaknesses of different research designs, interpretation of data drawn from contemporary and historical contexts, and strategies for evaluating evidence. The majority of the course is comprised of two-week units examining particular research designs, with a set of scholarly articles that utilize that design (e.g., experimental designs, with a set of readings that use this method to examine discrimination in labor and housing markets). The course is designed so that students will produce a proposal of their thesis as their final paper.

Grading: GSAS Graded

Repeatable for additional credit: No

SOC-GA 1401 Applied Quantitative Analysis I (4 Credits)

Typically offered Fall

The two-semester course in data analysis covers numerous specific statistical tools used in social science research. The course also emphasizes the use of statistical software packages in analysis. Students will gain experience with linear regression, probability models, statistical graphics, polynomial models, analysis of multivariate outcomes and repeated measures, and logistic regression. Prerequisite: introductory statistics course that includes linear regression.

Grading: GSAS Graded

Repeatable for additional credit: No

SOC-GA 1402 Applied Quantitative Analysis II (4 Credits)

Typically offered Spring

The two-semester course in data analysis covers numerous specific statistical tools used in social science research. The course also emphasizes the use of statistical software packages in analysis. Students will gain experience with linear regression, probability models, statistical graphics, polynomial models, analysis of multivariate outcomes and repeated measures, and logistic regression. Prerequisite: introductory statistics course that includes linear regression.

Grading: GSAS Graded

Repeatable for additional credit: No

SOC-GA 1501 Proseminar (1 Credit)

Typically offered Fall

The seminar is designed to serve multiple sets of student needs. With a focus on presentations from outside speakers and practical training, the seminar will expose students to different methods and practices of sociology. Seminar presentations are given on a wide range of topics by faculty from NYU and other New York City universities, as well as researchers from private, government, and non-profit settings. Some weeks will focus on current research in a particular area or on a particular topic, while other weeks will focus on specific skills (such as a software package) or topic of interest (such as applying to PhD programs).

Grading: GSAS Pass/Fail

Repeatable for additional credit: No

SOC-GA 1502 Proseminar (1 Credit)

Typically offered Spring

The seminar is designed to serve multiple sets of student needs. With a focus on presentations from outside speakers and practical training, the seminar will expose students to different methods and practices of sociology. Seminar presentations are given on a wide range of topics by faculty from NYU and other New York City universities, as well as researchers from private, government, and non-profit settings. Some weeks will focus on current research in a particular area or on a particular topic, while other weeks will focus on specific skills (such as a software package) or topic of interest (such as applying to PhD programs).

Grading: GSAS Pass/Fail

Repeatable for additional credit: No

SOC-GA 1903 Data Analysis (4 Credits)

Typically offered Spring

This course is designed to help AQR students gain experience with "real-world" data and research communication. Over the course of the semester, students will work collaboratively on a project using data from a large longitudinal survey and conducting analyses in Stata. In addition to a course paper, students will communicate research findings in a non-technical and an in class presentation, providing students with diverse experiences with communicating research findings.

Grading: GSAS Graded

Repeatable for additional credit: No

SOC-GA 1997 Internship (1-2 Credits)

Typically offered Spring and Summer

This course allows students to receive course credit for off-campus internship work by documenting their work activities in a professional setting, and reflecting on their internship's connection to broader principles of applied quantitative analysis. Course credit varies based on the number of hours worked and the number of writing assignments completed.

Grading: GSAS Pass/Fail

Repeatable for additional credit: No

SOC-GA 1998 Independent Study: MA Thesis (4 Credits)

Typically offered Fall, Spring, and Summer terms

To complete the requirements for the MA in Applied Quantitative Research, students will complete an independent research project, under the direction of a faculty member in the Department of Sociology (either chosen by the student, or assigned by the AQR program director). The project will involve an original analysis of quantitative data (most often a secondary analysis) to answer a research question constructed by the student (and approved by her/his faculty advisor). A preliminary proposal must be discussed and approved by the faculty advisor. The final project will take the form of a paper that would potentially be appropriate for submission to a scholarly journal in the social sciences

Grading: GSAS Pass/Fail

Repeatable for additional credit: No

SOC-GA 2111 Classical Theory (4 Credits)

Typically offered Fall

Examines major figures of modern sociology, including Marx, Durkheim, Weber, and Simmel. Focuses on the conditions and assumptions of social theory, the process of concept formation and theory building, general methodological issues, and the present relevance of the authors examined. An effort is made to speculate on the nature of the growth of knowledge in sociology.

Grading: GSAS Graded

Repeatable for additional credit: No

SOC-GA 2132 Organizations (4 Credits)*Typically offered not typically offered*

Familiarizes students with classic and recent organizational scholarship; enables students to apply critical insights from the literature to empirical analyses of organizations; and provides an over-view for the curious and a platform for independent work. Topics include bureaucracy; the Carnegie School and decision making; transaction cost analysis, resource dependence theory and structural holes; organizational ecology; neoinstitutional theory, network analysis and organizational fields; organizational sense-making; gender and racial inequality in organizations; technology and the labor process; innovation and macro-organizational change.

Grading: GSAS Graded**Repeatable for additional credit:** No**SOC-GA 2135 Race and Ethnicity (4 Credits)***Typically offered occasionally*

This class explores what race and ethnicity mean, beginning with historical ideas about human difference. Comparing American beliefs and practices to those found in other societies, we will pay special attention to the particular notions and hierarchies of race that emerge in different times and places.

Grading: GSAS Graded**Repeatable for additional credit:** No**SOC-GA 2137 Social Stratification (4 Credits)***Typically offered Spring*

Assesses the research and theoretical work on economic inequality and classes in the social sciences. Reviews important classic contributions (including Marx, Weber, and Schumpeter), compares competing approaches (including Marxist, conflict, functionalist, elite, and status attainment theories), and surveys modern directions of development (such as labor market studies, socialist inequality, the role of the state).

Grading: GSAS Graded**Repeatable for additional credit:** Yes**SOC-GA 2139 Population (4 Credits)***Typically offered Spring*

Overviews substantive field of demography, with an emphasis on the social aspects of population change, fertility, mortality, migration, and population composition.

Grading: GSAS Graded**Repeatable for additional credit:** No**SOC-GA 2145 Sociology Global Hist, Dimensions & Dynamics (4 Credits)***Typically offered occasionally*

Examines the process of globalization in its historical trajectory; its economic, political, and social dimensions; and its theoretical, cultural, and ideological representations. Focuses on the dialectics of global-local interaction and its consequences for the production of new categories of knowledge, academic disciplines, and methods.

Grading: GSAS Graded**Repeatable for additional credit:** No**SOC-GA 2153 Social Movements (4 Credits)***Typically offered Spring term of odd numbered years*

Surveys controversies and research issues and topics in social movements. Topics include classical, economic, resource mobilization, political process, and political opportunity theories of social protest movements; so-called new social movements; and issues of identity formation. Analyzes recent thinking and research concerning the consequences or impact of social protest movements, including the U.S. civil rights movement, labor movements, neopopulist movements, and revolutionary movements.

Grading: GSAS Graded**Repeatable for additional credit:** No**SOC-GA 2160 Deviance & Soc Control (4 Credits)***Typically offered occasionally*

Cumulative development and changing emphasis in deviance theory. Major methods of research and analytic models. Ecological anomie and subculture, functionalist, learning, and conflict perspectives. The social reactions approach: labeling processes and deviance amplification, organizational processing, and collective struggles over deviance definitions. Disputes over ?labeling.? Political and public policy implications of deviance sociology.

Grading: GSAS Graded**Repeatable for additional credit:** No**SOC-GA 2161 Social Policy (4 Credits)***Typically offered occasionally*

The aim of this seminar is to examine the social relations, institutional arrangements and human values that underpin the modern welfare state and to explore the theories and concepts that have been developed to understand them.

Grading: GSAS Graded**Repeatable for additional credit:** No**SOC-GA 2227 Sex and Gender (4 Credits)***Typically offered Spring*

Critically assesses the research and theoretical work on gender inequality in the social sciences. Provides a sophisticated, scholarly grasp of this fast developing field. Topics include the origins of gender inequality, economic equality between the sexes, political inequality, reproduction and child rearing, sexuality, violence, and ideology. Compares the competing theories of the causes of gender inequality and of changes in inequality.

Grading: GSAS Graded**Repeatable for additional credit:** No**SOC-GA 2303 Qualitative Research (4 Credits)***Typically offered not typically offered*

Supervised experience in activities and techniques of qualitative, naturalistic field methods like observation, interviewing, and participant observation. Exploratory work may lead to an empirical dissertation project.

Grading: GSAS Graded**Repeatable for additional credit:** Yes

SOC-GA 2308 Historical Compara Mthds (4 Credits)*Typically offered occasionally*

Overview of issues in historical and comparative methodology in macro-sociology; methods of and current controversies in historical and comparative sociology; debates about what makes sociology? historical? to debates about the benefits of techniques, such as qualitative comparative analysis; analysis of recent macrosociological investigations in sociology, employing comparative and historical methods.

Grading: GSAS Graded**Repeatable for additional credit:** No**SOC-GA 2312 Advanced Multivariate Statistics (4 Credits)***Typically offered Fall and Spring*

Matrix formulation of regression, probit, and logit. Simultaneous equation systems, exploratory and confirmatory factor analysis, measurement models, loglinear models, time-series, and panel analysis. Pooling methods.

Grading: GSAS Graded**Repeatable for additional credit:** No**SOC-GA 2314 Longitudinal Statistics (4 Credits)***Typically offered occasionally*

Statistical models and methods that make use of the temporal dimension in a data set, that is, its "over time" character. Age-period-cohort analysis, event history analysis, time series, repeated cross-sections, static and dynamic panel data methods.

Grading: GSAS Graded**Repeatable for additional credit:** No**SOC-GA 2321 Research Apprenticeship (4 Credits)***Typically offered occasionally*

Variable credit. Supervised by faculty advisor during research opportunity.

Grading: GSAS Pass/Fail**Repeatable for additional credit:** Yes**SOC-GA 2322 Research Apprenticeship (4 Credits)***Typically offered occasionally*

Variable credit. Supervised by faculty advisor during research opportunity.

Grading: GSAS Pass/Fail**Repeatable for additional credit:** Yes**SOC-GA 2323 Research Apprenticeship (4 Credits)***Typically offered not typically offered*

Variable credit. Supervised by faculty advisor during research opportunity.

Grading: GSAS Graded**Repeatable for additional credit:** Yes**SOC-GA 2324 Rsch Apprenticeship IV (4 Credits)***Typically offered not typically offered*

Variable credit. Supervised by faculty advisor during research opportunity.

Grading: GSAS Pass/Fail**Repeatable for additional credit:** Yes**SOC-GA 2325 Rsch Apprenticeship V (4 Credits)***Typically offered not typically offered*

Variable credit. Supervised by faculty advisor during research opportunity.

Grading: GSAS Pass/Fail**Repeatable for additional credit:** Yes**SOC-GA 2326 Rsch Apprenticeship VI (4 Credits)***Typically offered not typically offered*

Variable credit. Supervised by faculty advisor during research opportunity.

Grading: GSAS Graded**Repeatable for additional credit:** Yes**SOC-GA 2330 Intro to Methods of Sociological Research (4 Credits)***Typically offered Spring*

Provides an introduction to the methods of research in sociology.

The focus is the relationship between theory and empirical evidence, and research design. Methods include ethnographic observation, in-depth interviewing, comparative research, sampling, conceptualization, measurement, and causal inference.

Grading: GSAS Graded**Repeatable for additional credit:** No**SOC-GA 2331 Methods & Statistics I (4 Credits)***Typically offered not typically offered*

This two-semester sequence provides an introduction to quantitative research in sociology, integrating the study of research methods and statistics. The first semester introduces basic methodological issues and basic statistics. The second semester introduces multivariate techniques, emphasizing application through the study of one social science data set

Grading: GSAS Graded**Repeatable for additional credit:** No**SOC-GA 2332 Intro to Statistics (4 Credits)***Typically offered Fall*

This two-semester sequence provides an introduction to quantitative research in sociology, integrating the study of research methods and statistics. The first semester introduces basic methodological issues and basic statistics. The second semester introduces multivariate techniques, emphasizing application through the study of one social science data set

Grading: GSAS Graded**Repeatable for additional credit:** No**SOC-GA 2407 Sociology of Education (4 Credits)***Typically offered occasionally*

Sociological perspective on American education. Topics include the social context of socialization and learning; the effects of schooling; desegregation and social inequality; teachers as unionized professionals; school politics and bureaucracy; and selected policy issues confronting American education. Emphasis is on American institutions, although comparative perspectives are discussed.

Grading: GSAS Graded**Repeatable for additional credit:** No**SOC-GA 2412 Sociology of Occupations (4 Credits)***Typically offered occasionally*

Introduction to occupational analysis, its relation to class and organizational theory, the changing occupation distribution of the labor force, and theories explaining it and predicting its future. Considers impact on work commitment, identity, solidarity, status and career, and systematic mIntroduction to occupational analysis, its relation to class and organizational theory, the changing occupation distribution of the labor force, and theories explaining it and predicting its future. Considers impact on work commitment, identity, solidarity, status and career, and systematic methods of analyzing occupations.

Grading: GSAS Graded**Repeatable for additional credit:** No

SOC-GA 2414 Sociology of Culture (4 Credits)*Typically offered occasionally*

This introduction to the sociology of culture begins with a unit on micro-foundations, including micro-sociology and work in psychology on social cognition. It then covers the major theoretical traditions and themes in the sociology of culture (Durkheim and ritual, Weber and the sociology of ideas, Simmel on cultural networks, Marx and Weber on culture and power). A third unit focuses on active research areas within the sociology of culture, including culture and inequality, institutionalized culture production, and political culture. The final unit explores different approaches to theorizing and studying cultural change. The goal is to equip the student with a broad overview of the field, including exposure to the full range of methods that students of culture employ.

Grading: GSAS Graded**Repeatable for additional credit:** No**SOC-GA 2419 Sociology of Morality (4 Credits)***Typically offered occasionally*

In this class we will not only explore empirical and theoretical sociological research that examines morality, but we will also pull from work in philosophy, psychology, and history that is engaged in similar questions. Our goal will be to collectively explore the theme of morality in social life together, rather than to give you a systematic overview of a well-established field.

Grading: GSAS Graded**Repeatable for additional credit:** No**SOC-GA 2422 Sociology of Knowledge (4 Credits)***Typically offered occasionally*

Reviews and evaluates important perspectives on the relationship between knowledge and social structure. Focuses on a number of research strategies concerned with types of knowledge and knowledge-systems, codes and symbols, the manipulation of knowledge for social and political purposes, the study of ideologies, and the major factors in knowledge production.

Grading: GSAS Graded**Repeatable for additional credit:** No**SOC-GA 2432 Socio of Religion (4 Credits)***Typically offered occasionally*

The seminar covers most of the important sociological perspectives on religion, but the case materials are overwhelmingly on religion in the US and many of the theoretical readings reflect the effort of US sociologists to understand their home terrain.

Grading: GSAS Graded**Repeatable for additional credit:** No**SOC-GA 2434 Sociology of Law: (4 Credits)***Typically offered not typically offered*

Theoretical perspectives and research strategies in the sociology of law. Topics include the development of legal norms, legal participation and litigiousness, law and dispute resolution, the courts, the organization of public law enforcement, the legal profession, the relationship between social and legal change, and the use of law in social engineering.

Grading: GSAS Graded**Repeatable for additional credit:** No**SOC-GA 2435 Society & Economy (4 Credits)***Typically offered occasionally*

Examines the relationship between economic institutions and other social institutions. Considers how economic life influences and is affected by political organizations, the logic of organizational functioning, kinship systems, class conflict, and other social phenomena. Materials include classical theoretical works and contemporary studies.

Grading: GSAS Graded**Repeatable for additional credit:** No**SOC-GA 2441 Political Sociology (4 Credits)***Typically offered Spring*

Surveys controversies and research topics in political sociology. At the center of these investigations are states and power. Explores concepts of power and the theories of the state. Topics are the formation of states, political institutions, and social policies and the determinants and outcomes of collective action.

Grading: GSAS Graded**Repeatable for additional credit:** No**SOC-GA 2451 Family (4 Credits)***Typically offered Fall*

Systematic introduction to the literature on family and kinship. Includes classical theories and examines the major areas of contemporary research. Topics include family formation, social reciprocity, family dissolution, the history of family and kinship. Includes classical theories and examines the major areas of contemporary research. Topics include family formation, social reciprocity, family dissolution, the history of the family, and a comparison of general theoretical paradigms.

Grading: GSAS Graded**Repeatable for additional credit:** No**SOC-GA 2463 Urban Sociology (4 Credits)***Typically offered occasionally*

Introduction to the field of urban sociology that looks at the interplay between studies of city life and theories about cities. Traces the development of modern American cities; examines the theories that emerged to explain the causes and consequences of urbanization; and analyzes the social, political, and economic processes of community growth and decline among urban and suburban residents.

Grading: GSAS Graded**Repeatable for additional credit:** No**SOC-GA 2503 Criminology (4 Credits)***Typically offered occasionally*

In this course, we will explore varied and complicated issues, such as gun control, terrorism, human trafficking, capital punishment, immigration and systemic racial discrimination.

Grading: GSAS Graded**Repeatable for additional credit:** No

SOC-GA 2508 Sociology of Punishment (4 Credits)*Typically offered occasionally*

This course is an introduction to the sociology of punishment and crime-control. It aims to (i) introduce students to the theoretical literature in the sociology of punishment; and (ii) consider the nature of penal control in contemporary America. The class will explore sociological theories of punishment and penal change; the social functions of punishment; the effect of criminal justice in reproducing class and race stratification; the relationship a society's penal state and its welfare state; competing explanations of the emergence of 'mass incarceration'; and the distinctive character of American penalty, considered in historical and comparative perspective.

Grading: GSAS Graded**Repeatable for additional credit:** No**SOC-GA 3000 Interdisciplinary Sem: (4 Credits)***Typically offered not typically offered*

Topics:

Grading: GSAS Graded**Repeatable for additional credit:** Yes**SOC-GA 3111 Sem in Soc Theory (4 Credits)***Typically offered not typically offered*

This is a course on contemporary Marxist social science. It presents Marxist theory as a research program, focusing on its core themes and internal logic. We will examine how the class structure of capitalist societies generates a particular set of constraints and compulsions on social actors. We will then see how these constraints also generate corresponding patterns of dependence and social power, favoring some actors over others, and thereby generating forms of social domination specific to capitalism.

Grading: GSAS Graded**Repeatable for additional credit:** No**SOC-GA 3112 Research and Writing Seminar (4 Credits)***Typically offered not typically offered*

Advanced analysis of one or two sociological theorists or traditions, considering the origins, major claims, and current debates over their status (e.g., Marxism, Foucault, Merton, Bourdieu, Habermas).

Grading: GSAS Graded**Repeatable for additional credit:** Yes**SOC-GA 3113 Adv Sem Selected Themes in Soc Theory: (4 Credits)***Typically offered occasionally*

Advanced analysis of a particular theoretical question, looking at how varying authors and traditions have attempted to answer it; reviews historical and contemporary debates.

Grading: GSAS Graded**Repeatable for additional credit:** Yes**SOC-GA 3115 Adv Seminar in Contemporary Social Theory: (4 Credits)***Typically offered not typically offered*

Topics in sociological theory since World War II, including structural functionalism, interpretive approaches, rational choice theory, Marxism, critical theory, European developments, and the theoretical eclecticism of the discipline.

Grading: GSAS Graded**Repeatable for additional credit:** No**SOC-GA 3116 Seminar in Politics, Culture, & Social Theory (4 Credits)***Typically offered not typically offered*

An in-depth exploration of one or more core themes linking culture, politics and social theory; for example, Enlightenment and Romanticism, secularism, cosmopolitanism, humanitarianism, punishment and social control, nationalism or democracy.

Grading: GSAS Graded**Repeatable for additional credit:** No**SOC-GA 3117 Adv Sem in Politics, Culture, & Social Theory (4 Credits)***Typically offered occasionally*

A seminar devoted to the advancement of graduate student research projects engaging core themes linking politics, culture and social theory. Prerequisite: G93.3116 or permission of the instructor.

Grading: GSAS Graded**Repeatable for additional credit:** No**SOC-GA 3204 Adv Sem in Soc Psyc (4 Credits)***Typically offered occasionally*

The goal of this graduate-level seminar is to provide an overview of current theories and related research in sociological social psychology. While the course is designed to provide a broad survey of theories in the field, empirical readings will focus on experimental and quantitative approaches, methodologically.

Grading: GSAS Graded**Repeatable for additional credit:** No**SOC-GA 3306 Seminar Research Methods: (4 Credits)***Typically offered occasionally*

This course surveys methods for analyzing event history data, with a focus on continuous-time models and estimation techniques. Topics include the exploratory analysis of event history data, nonparametric methods, right censoring, maximum likelihood estimation, alternative specifications for time dependence in the baseline hazard, observed and unobserved heterogeneity, time-varying covariates, proportional and nonproportional models, multiple transition and competing risk models, left truncation and left censoring, and analogs of recursive and nonrecursive models. Major emphasis is placed on the logic, practical use, and estimation of models.

Grading: GSAS Graded**Repeatable for additional credit:** No**SOC-GA 3440 Micro-Macro Process (4 Credits)***Typically offered occasionally*

Examines how social life emerges from the interdependent behavior of multiple actors. Drawing from the analytical sociology research tradition, investigates the micro-level processes that bring about macro outcomes of interest. Topics include social influence, diffusion, segregation, cooperation and collective action, network externalities, status hierarchies, and social norms. Considers research using a variety of methods

Grading: GSAS Graded**Repeatable for additional credit:** No**SOC-GA 3462 Seminar: (4 Credits)***Typically offered occasionally*

Each section covers a specific topic in sociology, such as social networks or race and class.

Grading: GSAS Graded**Repeatable for additional credit:** No
