

DENTISTRY (DDS)

NYSED: 08193 HEGIS: 1204.00 CIP: 51.0401

Program Description

The Doctorate in Dental Surgery is a four year program accredited by the Commission on Dental Accreditation (<https://coda.ada.org/>). As such, this rigorous educational program, comprised of didactic theory and clinical instruction, is designed sequentially from foundational knowledge through the clinical application of care in preparation for licensure and admission to the profession of dentistry.

The program begins with a rich array of basic sciences and pre-clinical laboratory coursework; the curriculum is constructed to ensure that the courses complement each other to aid the student in synthesizing information simulating the manner in which a practitioner assesses each individual patient's needs and desires and in preparation for the Integrated National Board Dental Examination, a requirement for graduation from NYU Dentistry.

From the D1 year, students engage in patient care through direct observation in the diagnostic services in general dentistry and the specialty clinics. As students matriculate through the program, their experience and responsibilities in patient care increase through a series of milestone achievements culminating with becoming the primary care provider in the D4 year.

Academic and clinical progress is assessed throughout each stage of the program; students evaluate their growth and development through self-reflection, peer assessment and both formative and summative assessments in all courses, leading to a Global Assessment of competency certifying them for graduation.

Advanced Standing Program for International Dentists

NYU College of Dentistry offers Advanced Standing into the DDS program for the internationally trained dentist who seeks to practice dentistry in the United States. Students admitted with advanced placement enter a 28-month, full-time program accredited by the Commission on Dental Accreditation (CODA). With its culmination in the DDS degree, the graduating dentist has met the educational requirement for licensure.

Disclaimer

While this is not an NYU Dentistry Admissions requirement, licensure in New York State requires 6 years of education (1-year pre-professional, 5-year professional), prior to the Advanced Standing program. For more information, see NYSED (<https://www.op.nysed.gov/dentists/>).

Requirements for licensure may vary in other states.

Admissions

For information on admission to the DDS program for either the Four-Year or Advanced Standing Program, see DDS Program Admission Requirements (<https://dental.nyu.edu/education/dds-program/admission-requirements.html>).

Program Requirements

Four-Year Program

Year One

Course	Title	Credits
BAS01-DN 1508	Bldg Blocks of Life	3
BAS01-DN 1509	Cellular Organelles and Functions	2.5
BAS01-DN 1510	Basic Tissues	2
BAS01-DN 1511	Embryology	1
BAS01-DN 1608	Head and Neck Anatomy	5.5
BEH03-DN 1513	Health Promotion and Disease Prevention	2
BEH03-DN 1610	Assessment Skills Toward Professional Growth	1.5
CLS03-DN 1510	Multidisciplinary Practice of Dentistry	2.5
BEH05-DN 1512	Leadership, Ethics and Professionalism	2
BEH05-DN 1708	Health Informatics	1
DGS06-DN 1508	Introduction to Oral Maxillofacial Radiology	1.5
PCL03-DN 1509	Dental Anatomy and Occlusion	4
DGS07-DN 1608	CPR Certification	0.5
BAS01-DN 1610	Principles of Pharmacology (taken for 0.5 credits)	0.5
BAS01-DN 1614	Microbiology and Infectious Diseases	4
BAS01-DN 1615	Introductory Neuroscience	1.5
BAS01-DN 1617	Biomedical Foundations of Dentistry 1	0.5
BAS06-DN 1608	General Pathology	4
BEH05-DN 1509	Clinical Epidemiology	3
CLS06-DN 1608	Preclinical Radiology	0.5
PCL03-DN 1608	Single Tooth Restoration	6
BAS01-DN 1613	Craniofacial Biology	2
CLS09-DN 1608	Pediatric Dentistry for The New Dentist	1
Total Credits		52

Year Two

Course	Title	Credits
BAS01-DN 2517	Biomedical Foundations of Dentistry 2	0.5
BAS06-DN 2510	The Body & Disease I	6
BEH03-DN 2511	Assessment Skills Toward Professional Growth 2	0.5

Learning Outcomes

NYU Dentistry fosters a positive learning environment by providing a contemporary, comprehensive dental education curriculum that produces dental practitioners with the requisite knowledge, skill, values, judgement and professionalism to render dental care to their patients.

Upon completion of the program, graduates of NYU Dentistry are well prepared as confident and competent novice practitioners.

Graduates will have gained the skills, knowledge and expertise to:

1. Provide high quality comprehensive patient care and demonstrate compassion and respect for patient values.
2. Evaluate and apply evidence-based research in the biomedical, behavioral, clinical sciences and technology to health and disease and to promote transfer of knowledge and technology to the dental care delivery system.
3. Contribute to and participate in service activities to the community serving as leaders with experience treating a diverse population.
4. Foster a culture of safety in patient care; adhering to the standards set forth by the American Dental Association and upholding the Principles of Ethics and Code of Professional and Ethical Conduct.

Policies

NYU Policies

University-wide policies can be found on the New York University Policy pages (<https://bulletins.nyu.edu/nyu/policies/>).

College of Dentistry Policies
