

REGISTRATION

All NYU Dentistry students will be administratively registered. Masters students will work directly with faculty. All prerequisite course requirements must be met and the student must remain in good academic standing to progress.

Financial/Health Compliance Before Registration

Financial and health compliance must be met in order to progress through registration from semester to semester and to avoid de-enrollment. Arrears or medical blocks will prevent the student from registering for the ensuing semester.

It is the responsibility of the student to remain compliant with the health standards set forth by the University and the College. These standards are set forth to protect our students and must be satisfied in order to be in Good Standing with the College. Prospective students must be compliant before starting their admitted term. Continuing students must complete any required documentation at the start of every subsequent semester to remain in compliance. If any item expires during the course of a semester, the student must correct the deficiency within 24 hours or be subject to class/clinic suspension and/or class/clinic withdrawal.

Drop/Add

Students can refer to the University's Refunds and Withdrawals schedule for more information about eligibility for tuition refunds.
