

# VERTICALLY INTEGRATED PROJECTS (VIP-GY)

---

## **VIP-GY 5000 Vertically Integrated Projects (0 Credits)**

*Typically offered Fall and Spring*

The Vertically Integrated Projects (VIP) courses are designed to allow select students to participate in ongoing research, innovation, design, and entrepreneurial projects within student teams, under the direction of faculty from within Tandon, and other schools of NYU. There is a different section for each project; the graduate VIP course and sections align with the undergraduate VIP course sections. Students must apply to engage in a specific project. Decisions on acceptance will be made each semester by the faculty advisors for the project, in consultation with the VIP Program Management. Students are expected to participate for at least three semesters in a VIP course. Graduate students in 5000-level VIP sections will utilize their strong foundations within their disciplines, will pursue needed knowledge and skills, will make meaningful contributions to the team, and will take on significant responsibilities in technical areas and/or team leadership. | Prerequisites: Department & advisor approval required.

**Grading:** Grad Poly Pass/Fail

**Repeatable for additional credit:** Yes

**Prerequisites:** Greater than 3.

## **VIP-GY 5001 Vertically Integrated Projects (1.5 Credits)**

*Typically offered Fall and Spring*

The Vertically Integrated Projects (VIP) courses are designed to allow select students to participate in ongoing research, innovation, design, and entrepreneurial projects within student teams, under the direction of faculty from within Tandon, and other schools of NYU. There is currently an undergraduate version of the course (VIP-UY 300X) with different sections for each project; the graduate VIP course and sections will align with the existing undergraduate VIP course structure. Students must apply to engage in a specific project. Decisions on acceptance will be made each semester by the faculty advisors for the project, in consultation with the VIP Program Management. Graduate students in 5000-level VIP sections will utilize their strong foundations within their disciplines, will pursue needed knowledge and skills, will make meaningful contributions to the team, and will take on significant responsibilities in technical areas and/or team leadership. Department & advisor approval required.

**Grading:** Grad Poly Graded

**Repeatable for additional credit:** Yes

**Prerequisites:** Greater than 3.
