STUDENT SERVICES

Registration

Graduate students are responsible for familiarizing themselves with their program's/concentration's degree requirements. On the Concentrations page (https://publichealth.nyu.edu/master-public-health/concentrations/), you will find links to all concentration and program landing pages where you can find a list of degree requirements, a program sequence, concentration checklist which you can use to track and plan your degree requirements, and more. Similar details can be found on the landing pages for students in the MS in Biostatistics (https://publichealth.nyu.edu/programs/master-science-biostatistics/) and Epidemiology (https://publichealth.nyu.edu/programs/master-science-epidemiology/) programs.

Graduate and Doctoral course schedules can be found here (https://publichealth.nyu.edu/programs/courses/registration-schedules/). Be sure to review the Registration Checklist (https://publichealth.nyu.edu/programs/courses/graduate-registration-checklist/) when planning for course registration.
