

STUDENT SERVICES

NYU Grossman Long Island School of Medicine's Office of Student Affairs supports individual and professional development initiatives that create an inclusive community for medical students. Our mission is to foster excellence, compassion, and integrity with proactive advising and career counseling for all students.

Our office develops and implements programs, policies, and services that promote self-awareness, resilience, and wellbeing. We do this in a learning environment where students witness, experience, and expect a sense of respect, collegiality, kindness, and cooperation.

Additional student services include:
