

PSYCHIATRIC-MENTAL HEALTH NURSE PRACTITIONER (MS)

NYSED: 20063 HEGIS: 1203.10 CIP: 51.3810

Program Description

The master's program in psychiatric-mental health nursing prepares graduates to become psychiatric-mental health nurse practitioners (PMHNP) with the knowledge and skills necessary to provide comprehensive psychiatric-mental healthcare to children, adolescents, adults, and older adults. After successful completion of the program, graduates are eligible to take the Psychiatric and Mental Health Nurse Practitioner Certification Exam offered by the American Nurses Credentialing Center (ANCC) and become certified as a Psychiatric Mental Health Nurse Practitioner (PMHNP-BC) as well as become licensed in New York State and/or any state in the USA as a Psychiatric Nurse Practitioner (NP-P).

Highlights

- Opportunity to learn from experienced, nationally renowned faculty who are both academicians and practicing psychiatric-mental health nurse practitioners.
- Ability to develop specialized expertise in substance use and addictive disorders, trauma disorders and trauma treatment, and individual, group, and family psychotherapy.
- Opportunity to conduct research, publish articles, speak at state and national conferences, and serve as leaders in psychiatric nursing organizations.

Goals

- To provide comprehensive and competent psychiatric-mental healthcare to clients across the lifespan.
- To develop competency in performing psychiatric evaluations, determining psychiatric diagnoses and case conceptualizations, and providing psychiatric treatments including conducting psychotherapy and prescribing psychotropic medication.
- To develop the ability to establish advanced therapeutic relationships with clients that display empathic understanding, authenticity, genuineness, and unconditional positive regard -- qualities that are the quintessence of therapeutic effectiveness.
- To develop an awareness and understanding of self and to pursue an enduring commitment to personal development and reflective practice.
- To develop a spirit of active inquiry and critical thought in the application of psychiatric-mental health knowledge.
- To appreciate human diversity and develop competency in culturally sensitive psychiatric-mental healthcare.

MS Specialty Sequences

The College of Nursing offers specialty sequences for graduate students in:

- Holistic Nursing
- Palliative Care
- Substance Use Disorders

See Academic Programs | Master's (MS) (<https://nursing.nyu.edu/academics/masters/>) for more information.

Practicum Opportunities

- All practicum placements are arranged by the PMHNP faculty.
- Supervision is provided by licensed psychiatric clinicians at diverse practicum sites representing the full array of psychiatric-mental health treatment facilities throughout the New York metropolitan area.
 - Premier teaching hospitals (e.g., NYU Langone Health, NYC Health + Hospitals/Bellevue, New York-Presbyterian, Four Winds Hospital, Montefiore Medical Center and Behavioral Health Centers, and the VA Medical System).
 - Select private practice offices, counseling centers, child and adolescent residential centers, substance use facilities, school systems, psychiatric emergency centers, correctional facilities, ACT teams, and community-based psychiatric clinics (e.g., Jewish Board of Family and Children's Services, True Pursuit Psychological Services, NYU Counseling Center, Association to Benefit Children, MetroNP, Phoenix House, and Revcore Recovery Center).

Admissions

Access the application for our MS programs (<https://apply.nursing.nyu.edu/apply/>). All applicants to our MS programs are required to submit the following documents at the time of application:

1. One (1) transcript from each post-secondary school attended. We can review applications with unofficial transcripts. Admitted students will be asked to submit official transcripts prior to beginning coursework at NYU Meyers.
2. Resume.
3. A two- to three-page personal statement.
4. At least two (2) letters of recommendation.
5. RN license and registration certificate. Applicants may submit an application with an out-of-state license, but admitted students must obtain a New York State RN license prior to beginning coursework at NYU Meyers.

Applicants who have attended a post-secondary institution outside of the United States are required to upload one (1) transcript from each post-secondary school attended and submit one (1) official course-by-course evaluation of each foreign transcript directly to our office at the time of application. Applications will not be reviewed without these documents. Please mail official course-by-course evaluation(s) to:

NYU Rory Meyers College of Nursing
Office of Student Affairs and Admissions
433 First Avenue, LL1
New York, NY 10010

For applicants whose native language is not English, a copy of the applicant's latest TOEFL or IELTS score is required. Admitted students will be asked to submit official test scores prior to beginning coursework at NYU Meyers. We require a minimum TOEFL internet-based score of 100 and an IELTS Band score of 7.

Eligibility

- A BS in nursing or BS/BA in a non-nursing field together with an associate's degree in nursing
- Minimum GPA of 3.0
- NYS nursing license prior to beginning coursework
- Prior to beginning the adult-gerontology acute care nurse practitioner master's program, at least one year of full-time clinical experience as a registered nurse is required.
- Must have taken a basic statistics course and a basic research course at the undergraduate level

Psychiatric-Mental Health Additional Requirements

- At least one year full-time clinical experience as a registered nurse in psychiatric nursing is required.
- One year full-time clinical experience as a registered psychiatric nurse may be substituted by other equivalent experience in the psychiatric field, psychology, or another closely related social science field subject to approval by the program director.

Important Notes

We encourage applicants to fill out a FAFSA form at the time that they apply.

Applicants are encouraged to apply early. All deadlines listed are 'in office' deadlines, not postmark deadlines. It is always to the candidate's best advantage to apply early, especially when applying for financial aid.

Applicants may check on the status of their application using their application login. Should applicants have any questions about the admissions process, they are encouraged to call the Office of Student Affairs and Admissions at 212-998-5317.

Application Fee

The application fee is \$85 dollars. Applications will not be processed until the application fee has been paid. Application fees are non-refundable and must be received by the stated application deadlines.

Fee Waivers

NYU Meyers waives fees for applications based on financial hardship or US military service/US veteran status. To request that the application fee be waived, please submit a request to nursing.admissions@nyu.edu when submitting an application. The request should include the applicant's full name and the program to which they are applying. We will notify applicants via email when their request for an application fee waiver has been approved.

For Students with International Credentials

If an applicant's academic credentials are not in English and/or are from a foreign school with a grading system not based on a 4.0 overall GPA, we strongly suggest evaluation and translation. Educational Credential Evaluators, Inc (ECE) is the preferred service. ECE prepares evaluation reports that identify the United States equivalents of educational qualifications earned in other countries. To request an evaluation report, applicants must complete and submit an application form, along with all required documentation and all applicable fees. ECE will complete most evaluation reports in approximately 15 to 20 business days from the date they receive all required documentation and fees. They also offer one-day, five-day, and 12-day Rush Service and Express Delivery. Please visit the ECE website (<https://www.ece.org/>) for more information.

Program Requirements

The program requires the completion of 51 credits, comprised of the following:

Course	Title	Credits
Core Courses		
NURSE-GN 2005	Intro Stats Health Profs	3
NURSE-GN 2303	Research in Nursing	3
NURSE-GN 2041	Issues and Trends in Nursing and Health Care	3

and health-related client outcomes in organizational, legislative, and policy settings.

Policies

NYU Policies

University-wide policies can be found on the New York University Policy pages (<https://bulletins.nyu.edu/nyu/policies/>).

College of Nursing Policies

Additional academic policies can be found on the College of Nursing academic policies page (<https://bulletins.nyu.edu/graduate/nursing/academic-policies/>).

Learning Outcomes

Upon successful completion of the program, graduates will:

1. Demonstrate critical thinking and decision-making based on a synthesis of appropriate theories and evidence from nursing and other sciences as related to the roles of nurse practitioners, nurse-midwives, and/or roles as educators, administrators, informaticists, or clinical research nurses.
2. Perform role competencies defined by national professional organizations for nurse practitioners, or nurse-midwifery roles and/or roles as educator, administrator, informaticist, or clinical research nurse.
3. Demonstrate evidence-informed decision-making related to a specific advanced practice role.
4. Advocate for universal access to quality and cost-effective healthcare for all populations across the lifespan.
5. Collaborate as members of interprofessional teams to achieve high-quality and cost-effective health outcomes.
6. Demonstrate advanced professional practice role competencies related to educational, leadership, policy, organizational, and management outcomes.
7. Demonstrate ethical decision-making in the context of personal and professional codes and guidelines.
8. Articulate a personal and professional philosophy about the Advanced Practice Nursing role that reflects patient-centered care, respect for diversity, cultural values, and a commitment to the preservation of human rights based on professional standards of practice, scope of practice, and respective professional codes of ethics.
9. Evaluate patient outcomes in relation to improving quality and patient safety.
10. Demonstrate effective written, verbal, and technological communication skills that influence the achievement of professional
