

COURSE INVENTORY A-Z

Classification of Courses

This Bulletin contains descriptions of the College's departments, programs, and courses. The first part of every course number identifies the department or program offering or cross-listing the course (for example, ARTH for art history). This is always followed by a two-letter suffix. The suffix "UA" indicates undergraduate courses offered in the College; "GA" indicates a graduate course offered by the Graduate School of Arts and Science. The numeric identifier comes last (for example, a complete course rubric would be ARTH-UA 677 Reading The City).

Graduate courses open to qualified undergraduates are designated by the departments. The departmental policy in this matter may be indicated either in this Bulletin or in the Graduate School of Arts and Science Bulletin; interested students are also advised to check directly with the relevant departments.
