

ASIAN/PACIFIC/AMERICAN STUDIES (BA)

Department Website (<http://as.nyu.edu/apa/>)

NYSED: 31183 HEGIS: 399.00 CIP: 05.0206

Program Description

The program in Asian/Pacific/American studies, housed in the Department of Social and Cultural Analysis (SCA), offers a rigorous and broad education in the history and contemporary experiences of Asian peoples—whether from East Asia, South Asia, Central Asia, Southeast Asia, or from diasporic communities across the world—in the present-day Americas. Students gain an understanding of Asian American culture in relation to such topics as law, art, health, urban politics, community studies, (popular) culture, language, and art. The program collaborates closely with the A/P/A Institute to bring important artists, scholars, performers, and activists to campus where they engage in close dialogue with undergraduates, faculty, and the broader New York community. Its stellar teaching staff, many of whom also have prominent careers as curators, activists, and artists, offers a diverse range of courses from the politics of beauty to secret histories of New York.

Honors Program

Majors who have completed 48 credits of graded work in CAS and have a 3.65 GPA or higher (both overall and in the major) are encouraged to register for SCA-UA 92 in the fall semester of their senior year. Upon successful completion of the seminar requirement, students will be eligible to register for SCA-UA 93 in the spring. Information about the honors program can be found at as.nyu.edu/sca/ (<http://as.nyu.edu/sca/>).

Admissions

New York University's Office of Undergraduate Admissions supports the application process for all undergraduate programs at NYU. 1

The foreign language requirement is satisfied upon successful completion through the Intermediate level of a language. This may be accomplished in fewer than 16 credits, but those credits must then be completed as elective credit.

2

SCA-UA 42 is no longer required but is highly recommended and can count as an elective. One A/P/A language course can count as an elective if taught by SCA faculty.

Language and Linguistic Competency

The type of rigorous intercultural study promoted within the Department of Social and Cultural Analysis requires students to recognize the complex modes of communication at work both within and across different social groups. Studying the modern incarnation of these languages reveals the cross-cultural forces that have shaped them. We speak what we are and have been. The department therefore strongly encourages its students to develop advanced skills in Cantonese, Filipino, and/or any language spoken in the Asia or Pacific regions by any of the following means: taking language courses offered in A/P/A studies; taking elective courses in sociolinguistics; studying these languages beyond the minimum level required by the College of Arts and Science; pursuing community-based internship fieldwork necessitating the development and use of specific language skills; or undertaking study or research abroad in contexts entailing the exercise of key language or linguistic capabilities.
