CHEMISTRY (MINOR)

Department Website (http://as.nyu.edu/chemistry/)

Program Description

The Department of Chemistry has a long tradition in the College of Arts and Science, dating back well before the founding of the American Chemical Society at New York University in 1876. Professor John W. Draper, the first president of the society and chair of the department, was a remarkable polymath: chemist, physician, philosopher, historian, and pioneering photographer.

The department has undertaken a major development plan, strengthening its faculty, instructional laboratories, course offerings, and research facilities in the areas of physical, biophysical, bioorganic, and biomedical chemistry, as well as in chemical biology, nanoscience, and materials sciences. Qualified undergraduates are strongly encouraged to participate in research as early as their sophomore year of study.

The department houses state-of-the-art laboratory facilities for its undergraduate chemistry courses.

Majoring in chemistry at NYU provides strong preparation for graduate study in chemistry and biochemistry; professional education in medicine, dentistry, or patent law; and careers in industrial or pharmaceutical chemistry and biotechnology.

Minor Declaration

To request declaration of a minor, CAS students should visit the host department. To request declaration of a cross-school minor, CAS students should complete the online Minor Application available in their Albert Student Center. Students may also use the Minor Application (http://www.nyu.edu/students/student-information-and-resources/registration-records-and-graduation/registration.html) in Albert to request cancellation of a CAS or cross-school minor.

Program Requirements

The minor requires 20 credits, comprised of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM-UA 125</td>
<td>General Chemistry I &amp; Laboratory</td>
<td>5</td>
</tr>
<tr>
<td>CHEM-UA 126</td>
<td>General Chemistry II &amp; Laboratory</td>
<td>5</td>
</tr>
<tr>
<td>CHEM-UA 225</td>
<td>Organic Chemistry I &amp; Laboratory</td>
<td>5</td>
</tr>
<tr>
<td>or CHEM-UA 227</td>
<td>Majors Organic Chemistry I &amp; Laboratory</td>
<td></td>
</tr>
<tr>
<td>CHEM-UA 226</td>
<td>Organic Chemistry II &amp; Laboratory</td>
<td>5</td>
</tr>
<tr>
<td>or CHEM-UA 228</td>
<td>Majors Organic Chemistry II &amp; Laboratory</td>
<td></td>
</tr>
</tbody>
</table>

Total Credits 20

1 Only two of the four courses may also be used to satisfy the requirements of another department’s major.

2 Biology majors are required to take an additional upper-level chemistry course after Organic Chemistry II.

Policies

NYU Policies

University-wide policies can be found on the New York University Policy pages (https://bulletins.nyu.edu/nyu/policies/).

College of Arts and Science Policies

A full list of relevant academic policies can be found on the CAS Academic Policies page (https://bulletins.nyu.edu/undergraduate/arts-science/academic-policies/).
