

LINGUISTICS (MINOR)

Department Website (<http://as.nyu.edu/linguistics/>)

Program Description

Linguistics is the science of human language. It seeks to determine that which is necessary in human language, that which is possible, and that which is impossible. While linguists work to determine the unique qualities of individual languages, they are constantly searching for linguistic universals—properties whose explanatory power reaches across languages. The discipline of linguistics is organized around syntax (the principles by which sentences are organized), morphology (the principles by which words are constructed), semantics (the study of meaning), phonetics (the study of speech sounds), phonology (the sound patterns of language), historical linguistics (the ways in which languages change over time), sociolinguistics (the interaction of language with society), psycholinguistics, and neurolinguistics (the representation of language in the brain). Current research by faculty members extends across the field, including topics in the interaction of syntax and semantics, phonetics and phonology, languages in contact, pidgin and creole languages, urban sociolinguistics, and computer analogies of syntactic processes.

Minor Declaration

To request declaration of a minor, CAS students should visit the host department. To request declaration of a cross-school minor, CAS students should complete the online Minor Application available in their Albert Student Center. Students may also use the Minor Application (<https://www.nyu.edu/students/student-information-and-resources/registration-records-and-graduation/forms-policies-procedures.html>) in Albert to request cancellation of a CAS or cross-school minor.

Program Requirements

The minor requires the completion of 16 credits with a grade of C or better. Courses taken Pass/Fail do not count. If any course is used to fulfill the major or minor requirements in any other department or program at NYU, it may not be used simultaneously to fulfill the requirements for the Linguistics minor.
