SFMTV-UT 80 Sight and Sound: Documentary (6 Credits)

The course teaches students to look at their world and to develop the ability to create compelling and dramatic stories in which real people are the characters and real life is the plot. Through close study and analysis of feature length and short documentaries, as well as hands on directing, shooting, sound-recording and editing, students rigorously explore the possibilities and the power of non-fiction storytelling for video. The course is a dynamic combination of individual and group production work in which each student will be expected to complete five projects.
