

CINEMA STUDIES (MINOR)

Department Website (<http://www.tisch.nyu.edu/cinema-studies/>)

Program Description

Cinema Studies is devoted to the history, theory, and aesthetics of film and the moving image. The approach to cinema is interdisciplinary and international in scope and is concerned with understanding films in terms of the material practices that produce them and within which they circulate. While film constitutes the primary object of study, the department also considers other media that fall within the realm of sound/image studies (e.g. broadcast television, video art, and online technologies) to be within its purview.

Minor Declaration

To request a minor be added or removed from your record please use your Albert Student Center. Click on the Academics tab, and then click Minor Application under Planning Tools. New First Year and Transfer students should wait to declare minors toward the end of their first academic year and after discussing it with their academic advisor.

Program Requirements

The minor requires the completion of 16 credits. Courses offered at other NYU schools must be approved by the Department of Cinema Studies to count toward the minor.
