

COLLEGE OF DENTISTRY

Our Mission

The mission of the NYU College of Dentistry is to partner with students in achieving academic excellence, providing the best oral health care, and engaging in research, scholarship, creative endeavors, and service to improve the health of the highly diverse populations in New York City and around the world.

Education and Training

The NYU College of Dentistry is the third oldest and the largest dental school in the United States, educating nearly 10 percent of our nation's dentists. The College has over 1,900 students in its various pre- and postdoctoral programs from all over the United States and 40 foreign countries. NYU Dentistry offers specialty training in the following dental specialty areas: endodontics, oral and maxillofacial surgery, orthodontics, pediatric dentistry, periodontics, and prosthodontics, as well as in implant dentistry; conducts an extensive continuing education program; and is home to the only dental school-affiliated dental hygiene program in New York State.

Patient Care

In addition to educating health professionals, NYU Dentistry endeavors through its faculty, students, and alumni to improve the health of the highly diverse populations in New York City and around the world. The College provides approximately 300,000 visits annually to the most multiethnic, multicultural patient population in the nation. NYU Dentistry conducts a mobile dental care program, Smiling Faces, Going Places, which travels to dentally underserved areas throughout New York City to provide critically needed dental services; sponsors free oral health and oral cancer screenings for thousands of New Yorkers annually; and has established a global outreach model that delivers essential care to populations in need and provides participants with a unique service-learning experience, opportunities to conduct critically-needed research, and an increased awareness of access to care issues, while fostering a passion for volunteerism and social responsibility.

Research and Innovation

NYU Dentistry has one of the strongest, largest and most rapidly growing research programs in the country. At the heart of the College's research program is a commitment to collaboration. An important part of our research strategy is translational research. We firmly believe that in today's world, groups of researchers must work together synergistically in order to move fundamental basic science research into practice. This collaborative, integrated approach drives the majority of the research conducted today at NYU Dentistry.

The College's distinguished dental faculty includes full- and part-time clinicians and researchers, including many who have made pioneering contributions in the areas of caries research across the age spectrum, salivary diagnostics, cancer, especially oral cancer, bone health, behavioral research, HIV research, pain control, implant dentistry, the development of new dental materials, the use of fluoride and dental sealants to prevent caries, bonding techniques to restore the appearance of damaged teeth, the correction of facial deformities, and orthodontic services for adults.

Accreditation

ADA CERP

New York University College of Dentistry is an ADA CERP recognized provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Concerns or complaints about a CE provider may be directed to the provider or to ADA CERP at www.ada.org/cerp (<http://www.ada.org/cerp>).

The formal continuing dental education programs of New York University College of Dentistry are accepted by the AGD for Fellowship, Mastership and membership maintenance credit. Approval does not imply acceptance by a state or provincial board of dentistry or AGD endorsement.

ACDE

New York University is a member of the Association for Continuing Dental Education. The ACDE is the organization of continuing dental education providers associated with dental schools in the United States, Canada, and Puerto Rico.
