ADMISSIONS

Admissions
The courses of study at NYU Tandon School of Engineering are academically rigorous and intellectually challenging; therefore, admission is highly selective. Students seeking admission to the undergraduate programs are evaluated by the professional staff of the Office of Undergraduate Admissions (https://www.nyu.edu/admissions/undergraduate-admissions.html).

Undergraduate Application Process
New York University’s Office of Undergraduate Admissions (https://www.nyu.edu/admissions/undergraduate-admissions.html) supports the application process for all undergraduate programs at NYU. For additional information about undergraduate admissions, including application requirements, see How to Apply (https://www.nyu.edu/admissions/undergraduate-admissions/how-to-apply.html).

Readmission
NYU Tandon students who have not been in attendance for one semester or more and have not been granted an approved leave of absence must apply for readmission through the Office of Undergraduate Admissions (https://www.nyu.edu/admissions/undergraduate-admissions.html). The student’s application for readmission will be sent to the student’s academic department for evaluation. The academic department in consultation with the Office of Academic Affairs determine whether the student is eligible to continue his/her studies at the School. If a former Tandon student has, in the meantime, engaged in coursework at another college or university, a transfer application must be filed for admission consideration.

Students who have been academically disqualified must apply for readmission through the Office of Undergraduate Admissions (https://www.nyu.edu/admissions/undergraduate-admissions.html). Students applying for readmission are expected to state their reasons for leaving Tandon and explain why they want to return.
