COMPUTER SCIENCE (MINOR)

Program Description
The Computer Science and Engineering department offers a minor in Computer Science for students in other majors who wish to complement their major studies with Computer Science coursework.

Applying for the Minor
Apply for a minor in Albert using the link in the My Academics section of the Student Center.

Students should apply for the minor before applying for graduation.
After applying for the minor, the application is then forwarded to the Home School Advising Office, Host School Advising Office, Host School Department/Program, and the Academic Dean's office.

The departmental advisers governing the minor will have access to approve or disapprove the minor online using the Graduation Tracking Search page. If a student is registered for a course for the minor during their last semester, the adviser can still set the status to departmental approved pending current courses.

Program Requirements
The minor requires the completion of 15 credits, comprised of the following:

<table>
<thead>
<tr>

Minor Policies
Students must maintain an average of 2.0 or better in the entire minor. In addition, a required CS course in a BS curriculum cannot be used to satisfy the course requirements in the CS minor. For transfer students, at least three of the five courses must be taken at the NYU Tandon School of Engineering.

NYU Policies
