

ENVIRONMENTAL STUDIES (ENSTU-UF)

ENSTU-UF 101 Environmental Studies (4 Credits)

Typically offered Fall, Spring, and Summer terms

Through the application of fundamental physical and chemical processes, humans attempt to harness the environment for their particular needs. In examining this most significant dimension of modern life, this course emphasizes both its harmful and beneficial aspects and deals with such topics as air and water pollution, transportation, energy resources, and waste control. The political context in which these problems occur is also examined. This course satisfies the requirement in Life Science.

Grading: FAS Graded

Repeatable for additional credit: No
